Call for more information: (206) 693-9132

**INSTRUMENT
TECHNICIAN, 2017-00924**

Salary: \$34.17 to \$36.88
Closes on: 12/04/2017, 11:59pm

The City of Portland is seeking an Instrument Technician to join our dynamic team of highly qualified and innovative technicians that work on very complex and varied instruments and control systems. Instrument Technicians operate at a journeyman level to safely install, maintain, document and repair electrical, electronic instrument systems. These systems are used to meter, record, analyze, control and monitor water and/or wastewater. For more information and to apply, please visit <www.portlandoregon.gov/jobs>.

**ELECTRONIC SYSTEMS
TECHNICIAN, 2017-00851**

Salary: \$28.58 to \$36.44
Closes on: 12/04/2017, 11:59pm

Electronic Systems Technicians (ESTs) work in the Data Acquisition & Management Section in the City of Portland's Bureau of Environmental Services. Electronic Systems Technicians (ESTs) perform field and office work to maintain, operate, troubleshoot and repair the City's environmental monitoring data acquisition system to collect, monitor, report and manage data from 200 remote monitoring locations. For more information and to apply, please visit <www.portlandoregon.gov/jobs>.

**SR. RESEARCH
ASSISTANT**

Oregon Health and Science University (OHSU), Portland, OR has an opening for Sr. Research Assistant in Computational Biomedicine. The Research Assistant will participate in the Galaxy project, <<http://galaxyproject.org>>, which builds open source software to enable large-scale computational medicine and genomics analyses. Req.: B.S. in computer science or information technology. Must have the following skills which may be gained either as part of post-baccalaureate education or work experience: 1) Cloud computing, specifically use of virtualization for distributing data storage and compute; 2) NoSQL databases and relational databases; 3) Information retrieval approaches (e.g., TF IDF, PageRank) multi-dimensional and multi-resolution data structures; 4) Multi-resolution indexes for high throughput genomics data; 5) High-level query languages for high-throughput genomics data (e.g., GEMINI, GMQL); similarity search and correlation assessment for high-throughput genomics data; 6) Software engineering in a team environment contributing to a large, shared open source project; 7) C# .NET, Java, or C++ and Python; 8) Developing bioinformatics pipelines for analysis of high-throughput genomic data using open-source bioinformatics tools such as SAMtools, BAMtools, Galaxy, MACS, IGV, IGB, and UCSC Genome Browser; 9) Programming experience on Galaxy codebase, <<https://github.com/galaxyproject/galaxy>>; 10) Expertise in algorithms/methods for performing large computing tasks across heterogeneous computing clouds/resources to optimize various criteria, such as minimal data transfer or cost or maximizing utilization of available computing resources (example methods include genetic algorithms, binning and profiling, and using Probability Density Function (PDF)-optimized scalar quantization to distribute data).

Please e-mail CV to Holly Chung at <chunho@ohsu.edu> or by mail to Holly Chung, Mail Code L333, OHSU, 3181 S.W. Sam Jackson Park Rd., Portland, OR 97239.
