COVID-19 boosters work fast.

When you receive a booster dose, your immune system responds and antibody levels are boosted within 2-3 days.

Protect yourself and your loved ones from serious disease from the Omicron variant by getting a booster when you're eligible.

Health

If I have a positive COVID-19 test, could it just be the flu?

A positive COVID-19 test result only tells you that SARS-CoV-2, the virus that causes COVID-19, is present.

There are certain tests that are designed to detect both viruses, but they wouldn't give a positive COVID-19 test result if only the influenza (flu) virus were present.

THE CANCER PROJECT

Finally!
A prescription with side effects you want.

Blueberries and red beans, just a few of the many foods rich in antioxidants, are powerful remedies in the fight against cancer. Research shows that fruits, vegetables, and other low-fat vegetarian foods may help prevent cancer and even improve survival rates. A healthy plant-based diet can lower your cholesterol, increase your energy, and help with weight loss and diabetes. Fill this prescription at your local market and don't forget—you have unlimited refills!

For a free nutrition booklet with cancer fighting recipes, call toll-free 1-866-906-WELL or visit www.CancerProject.org
