Another new line of shoes, a larger and more complete stock than ever, just arrived at C. F. Henderson's.

Henry Bushnell has shut down his fruit drier temporarily, as he is through so far as prunes are concerned. He may start up later on for the apple crop. Just how many pounds of prunes were prepared for the market we were unable to learn, but J. A. Bushnell said he thought somewhere between 60 and 80 tons.

Millhorn Bros. have some nice looking chinaware they are giving away to customers.

Junction City's public school opened Monday morning, with a total enrollment of 118 pupils. Prof. A. T. Gruggett, of Halsey, is Principal; Miss Pearl Dorelius, of Isabel, first assistant; Miss Belle Milligan, of Eugene, intermediate; Miss Fanny Griggs, of Albany, primary. All are teachers of ability, and a successful year can safely be predicted.

The Klamath Falls Republican, in speaking of the huckleberry patch near Crater Lake, says: "The huckleberry patch is six or eight miles square. It is loaded with berries from one end to the other, and not less than 300 people are there gathering them in. They come from all directions, and they are coming and going all the time. Deer and bear are in abundance."

L. B. Moore, depot agent, has the agency for the Troy Laundry of Portland. Shipments every Wednesday morning on the overland.

Rev. J. D. Sibert was so glad to get back to Junction, after attending conference at Albany, that he forgot his valise when he got off the train. After telegraphing down the road, the property was finally located and returned to its owner. It is evident that Junction contained more of interest to the reverend gentleman's mind than the valise.

The Heppner flouring mill will soon be ready to resume operations for a successful winter's run. The new manager, W. L. Houston, arrived from Junction City last week and is now actively engaged in making repairs, putting in some new machinery and getting the mill in tip-top shape for operation. The new and experienced miller, Mr. C. J. Ehrman, arrived the first of the week, also from Junction City, and the most successful run in the history of the mill will likely be made this season.—Ex.

Call and see the brand new and stylish walking hats just received first of the week at Mrs. J. A. Sibbette's fashion emporium.

Rev. C. T. McPherson and wife arrived home on Tuesday morning's overland from Ashland, where they went to attend the annual Conference of the M. E. church. It is with deep regret that the people of Junction City learn that Rev. McPherson will leave this city, having been appointed to minister to the spiritual welfare of the people of University Park.

Rev. J. D. Sibert and family returned Monday from Albany, where the annual conference of the M. E. church, South, has been in session. We are sure that the people of Junction will be pleased to learn that Rev. Sibert has been assigned to this city for another year. He has given universal satisfaction as a minister, and he and his family occupy a warm spot in the hearts of the citizens of Junction.

C. F. Huriburt is evidently bent on having one of the prettiest residence places in town. He has just built a new addition on the west side, added a large and commodious bath room, with porcelain tub and all conveniences, and put in a thorough system of water pipes throughout the house. All the rooms have been newly papered and repainted. New outhouses have been built, and the yard has been graded and sown in grass.

Tomorrow (Friday) will be opening day at Mrs. J. A. Sibbette's millinery parlors. The very latest and most exquisite creations in ladies' headgear.

G. W. Weatherly, president and manager of the Weatherly Creamery Co., Portland, is in the city looking over the field with the object of locating a creamery here. He was being introduced by Emory Herron, one of Junction's progressive young farmers, who wants to see the project succeed. It is to be hoped that the farmers and merchants will give Mr. Weatherly a helping hand. All around us the creamery industry is thriving and putting money in the pockets of the farmer and business man monthly. High-grade creamery products command a fancy price in the market at all times, with scarcely any fluctuation, and there is no reason why the people here should not enter this remunerative field and reap the benefits to be derived thereby.

While the public mind has been regaled and surfeited with war news and deeds of valor by the "boys in blue" of these United States for the past two years, and every fair damsel carries a miniature of a brother or lover in regulation uniform, who has won renown at El Caney, San Juan, Manila, or later, in

the Flowery Kingdom, it is apropos to mention the fact that we have seen, by chance, a Captain's and Colonel's commission, in the war of the Rebellion, of one of our fellow-townsmen, who, judging by his manner and bearing, was as brave and gallant a knight as ever entered the lists in the days of Ivanhoe. We refer to Col. F. W. Folsom. His commission as Captain bears date of May 11, 1863, and that of Lieutenant-Colonel August 26, 1864. Both commissions are signed by Addison C. Gibbs, Governor, and Samuel May, Secretary of State.
