The lodge had prepared a short programme, which was carried out without a hitch, and being interspersed with music by the orchestra, was an enjoyable feature of the occasion. However, to avoid monotonous detail, it can be truly said that the meeting, from start to finish, was a feast of reason and conviviality. A banquet was served that in preparation is seldom equaled for variety, quality or daintiness, and to which the members applied themselves with a zest that betokened their appreciation of the good things of this occasion. The entertainment was continued until the hour of arrival for the south-bound overland, when the lodge, in a body, escorted their distinguished guest to the depot, and after congratulations and good-byes the happy crowd returned to their respective homes.

A GENTLE HINT.

In our style of climate, with its sudden changes of temperature—rain, wind and sunshine often intermingled in a single day—it is no wonder that our children, friends and relatives are so frequently taken from us by neglected colds, half the deaths resulting directly from this cause. A bottle of German Syrup kept about your home for immediate use will prevent serious sickness, a large doctor's bill, and perhaps death, by the use of three or four doses. For curing Consumption, Hemorrhages, Pneumonia, Severe Coughs, Croup, or any disease of the Throat or Lungs, its success is simply wonderful as your druggist will tell you.
