Dr. Lowe, oculo-optician, Eugene.  
Dr. Oglesby, physician and surgeon.  
Orders taken for ladies' and gents' suits at Houston's.

Opening day at Mrs. Sibbett's Millinery parlors Friday, April 5.

The Danish colonists west of Eugene will soon have a house of worship, says the Guard.

For sale—A large, well made and well arranged lady's trunk. A bargain. Inquire at the Bulletin office.

Take your laundry to G. S. Keck's barber shop. He has the agency for the Troy Laundry, of Portland.

C. F. Hurlburt has the agency for Oliver Chilled Plows and all extras. A full supply always on hand.

Manager George Handaker shipped 50 sacks of flour to Cottage Grove yesterday and 5000 lbs. of feed to Eugene.

Prof. Meakin proved that he appreciates the presence of the non-resident Woodmen by inviting them to take front seats.

For sale—A brand new 1901 Rambler "Special." Never been out of the store. A bargain. Inquire at the Bulletin office.

H. L. Rann, one of the substantial farmers of Junction neighborhood, has sold out and will locate in Eugene. We welcome Mr. Rann to our midst.—Register.

Old Boss—I'm sick; can't work today.

Old Boss—Well, I'll give you some Cascade Condition Powders. They make an old boss young again.

Preaching at C. P. Church next Sunday. Morning subject, "The Church Better Than Secret Societies." Evening subject, "No Room for Christ."

J. D. Sizsar.

The marriage of Mr. Moody Hollis to Miss Amelia Renner and Mr. George H. Mayberry to Miss Estella Brownlee was solemnized at Eugene yesterday morning at 11 o'clock at the home of Mrs. M. F. Brownlee.

Prof. Gruggett received a letter from President P. L. Campbell, of the State Normal School at Monmouth, saying that he would be here and address the graduating class of the public school on commencement day, May 10.

Ladies' ready made suits and rainy day skirts at Houston's.

The Junction City Creamery Co. shipped 240 lbs. of butter to Portland Monday. Farmers who have cows and are not selling their produce to this company should investigate the matter. There is no other way in which they can realize so much money from the same amount of capital invested.

J. H. Miller invites the people of Junction and vicinity to call and see the new 1901 Rambler bicycles. If you are thinking about buying a wheel it will pay you to look at the Rambler before you make a purchase. Just notice the number of these wheels in use. That is the best advertisement it can have.

Just received—1600 lbs. of nice country hams and shoulders at Millhorn Bros.

Prof. Gruggett is holding reviews each evening after school, from 4 to 4:30, for the benefit of scholars who are low in grades. Credit is due him for the unselfish interest thus manifested in the welfare of those entrusted to his charge. By holding these reviews he adds an extra half hour to his work each day. The professor believes in the old maxim "that there is no excellence without great labor."

C. F. Hurlburt yesterday got in a large supply of the Junction City Milling Co.'s celebrated "White Rose" brand of flour. That is about as good an advertisement as this enterprising business house could have. It speaks well for a firm when it patronizes home industry. This milling company buys its wheat from the farmers of this vicinity, paying spot cash, the farmers spend this money with the merchants of the city, so it follows as a matter of right, as well as business, that the merchants should keep on hand the output of this mill. The flour is as good as any on the market.

### Personal

Mrs. L. B. Moore returned from a visit at Roseburg Saturday.

C. F. Hurlburt made a business trip to Portland last of the week.

#### HARRISBURG.

To the Editor:

Harrisburg at this time, on the subject of electric lighting, has eliminated to a great extent, the drawbacks which have heretofore operated with such stifling effect. We have had to contend with an element of obstruction on the inside, and exactions from the outside that has had almost a paralyzing effect on those disposed to try for a betterment of conditions. Now, we have a new plan upon which success seems possible and that Harrisburg people desire to discuss with the people of Junction City, viz: That the people of the two cities organize a company to build and operate a lighting plant. It is pointed out that this plan would insure to the subscribers, light at the cost of production, and, too, under such an arrangement the absolute control would be with the consumer. This would certainly afford better protection on lines of economy than could be expected from a corporation whose single purpose would be to make a profit off of consumers. This is a plain business proposition in which the interests of the two cities are identical, and to reach business in this much needed enterprise, it is necessary that the people of the two cities enter upon the work of organization with a spirit of friendly cooperation and pull together for the support of the common cause. Mr. Goff, of Albany, who is a practical electrician and engineer, was here last week for the purpose of examining the water ditch here, and he decided that it is a safe and ample source of power for the purpose of a lighting plant, and a surplus besides; he also says that if the stock is to be sold to anybody but residents, he would like a block of the shares. There are other non-residents who express a desire to take an interest in this enterprise. As a matter of fact the auspicious moment is upon us. The matter is prominently before us and the friends of the enterprise have abundantly established the fact that they have an overwhelming majority, both in numbers and assessable property, therefore it is a safe conclusion that the interest of the two cities are in safe hands and that the proper effort will be made to push the business to a speedy finish.

There is nothing new that can be said in favor of the "Rambler" bicycle. It has been on the market twenty-two years and during all of that time has been the favorite with bicycle riders. The new 1901 Rambler "Special" is four or five pounds lighter than any Rambler ever before turned out, and as true as steel and skill can make them. Call at Wright's furniture store and see them.

#### A Rare Treat.

The people of Junction City were treated to an intellectual feast last night by Prof. John P. Meakin, of Salt Lake City, that will long be remembered by those who heard him. We doubt if there was one in the audience, man, woman or child, who did not go home feeling better and happier for having heard the lesson of life from the lips of this noble and gifted man.

The North Yamhill Record has this to say of Professor Meakin:

"He is a gentleman, an orator, a scholar, an artist, and a warm friend to all mankind, and his beautiful word pictures stir the intellect, quicken the soul, touch the heart and arouse to action those qualities of goodness which lie dormant in so many human hearts. Would there were more John P. Meakins."

GOOD ADVICE.

The most miserable beings in the world are those suffering from Dyspepsia and Liver Complaint. More than 75 per cent. of the people in the United States are afflicted with these two diseases and their effects: such as Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heartburn, Water-brash, Grawing and Burning Pains at the Pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming up of Food after Eating, etc. Go to Mueller & Hill's and get a bottle of August Flower for 75 cents. Two doses will relieve you. Try it. Get Green's Prize Almanac.

Geo. H. Himes, of Portland, assistant secretary of the Oregon Historical Society, arrived here last Thursday and stayed over until Friday afternoon. Mr. Himes came up to confer with Miss Anna Oglesby, in regard to a design for a permanent badge for the Oregon State Press Association, both of whom were appointed on a committee for that purpose by President Stewart at the meeting of the Association at Ashland last fall. Another reason for his visit here was to secure a rifle that Dr. Oglesby used in the battle of Willow Springs, with the Bannock Indians, near Pendleton, Or., in 1878. This valuable historical relic will be added to the collection in the rooms of the Oregon Historical Society. He also obtained a pistol, the property of S. L. Moorhead, that is said to have been in the battle of Waterloo. Mr. Himes spent Thursday evening as the guest of Dr. Oglesby and family. Many interesting anecdotes and personal experiences during their trip across the plains were related by both gentlemen.
