About Electric Lights.

HARRISBURG, OR., April 4.
Editor of the BULLETIN:
It is requested that you mention, in the columns of your valued paper, that whatever stock is not subscribed by the citizens of Harrisburg and Junction City will be taken by Ralston Brothers to complete the capital stock of the proposed electric light company.
Mr. Ralston, of Portland, who expects to take an interest in this matter with his brother, of Albany, is amply able to put the enterprise on its feet, and expresses a willingness to do so. He will be on the ground next week to look over the field, and if he finds conditions substantially as his brother has represented they will take hold at once and cooperate with the two towns in pushing the undertaking to an early completion.
By way of explanation, Mr. E. E. Upmeyer has to say to his friends at Junction City that his whole time this week has been imperatively demanded in receiving saw logs at the mill and settlements on account of logs delivered and to come forward, and that at the earliest possible moment he will be on hand to assist in completing the organization of the company to serve our mutual benefit.

This is the season when housecleaning begins to receive consideration. A new carpet for the parlor, sitting room or bedroom, and new matting for the kitchen and halls, add a thousand percent to the appearance of a home. You will find just what you want in this line at W. L. Wright's furniture store and at prices that are right.

What you ask for . . .

is what you always get here. You are never urged buy something "just as good."

We have

everything a good drug store should have, hence are pretty sure to have just what you want. Our advice—if you want it—costs you nothing; and it isn't forced on you if you don't want it. We are here to serve you—not to dictate.

We aim to give perfect service at fair prices.

We do not care to be known as "cheap druggists," but we do want to be known as "money's worth" druggists.

The Warehouse Case.

Judge Hamilton has handed down his decision in the case of H. M. Milliorn et al. vs. Caroline Clow et al., wherein plaintiffs seek to recover on wheat stored in the Clow warehouse at Junction and in which warehouse there was a shortage of 12,508 bushels. The court says:

It is ordered, adjudged and decreed that the persons hereinbefore named, as having deposited wheat as aforesaid in said warehouse of Robert Clow share pro rata according to their respective interests as hereinbefore shown in the proceeds of the sale of the wheat now in the hands of the receiver. That the amount due each of said depositors according to their respective interests, be paid to each by said receiver, and the receipt of said depositor be taken therefor and filed with the final report of said receiver. That before paying said amounts of money as aforesaid, there be deducted from the amount of money in the hands of said receiver and allowed to him for his services as such receiver the sum of \$200, and \$150 for expenses in employing an attorney, and that there also be paid therefrom the costs and expenses of this suit.

That plaintiffs have judgment against Caroline Clow as administratrix of the estate of Robert Clow for their costs herein incurred. That the complaint herein as to defendant Balfour, Guthrie & Co. shall not recover costs. The defendant H. M. Grant is not entitled to relief herein, and his said prayer be dis-

allowed, but without any judgment for cost against said defendant.

That as to each of the other defendants named in said second amended complaint, no other or further decree be rendered herein, and that no judgment of costs be rendered except as hereinbefore provided.

The case will probably be appealed to the supreme court.—Guard.
