—They exercised the fantastic toe at Frank Sheldon's, out on the ranch, last Wednesday night until broad daylight. Many youngsters from here were there. Frank and his wife were great entertainers.

—Easter services were held at the Christian Church Sunday, consisting of appropriate songs and recitations by the children. The church was filled to its utmost capacity. The children acquitted themselves handsomely.

—Randall Cornett, son of J. B. Cornett, residing near Peoria, was buried at the Shedd cemetery on last Friday. Undertaker W. L. Wright was called to take charge of the remains. The drive from here was made through the severest rain storm of the season.

—Four young hoods last week, with tragic ends in view, went outside the corporate limits to settle differences by a hasty encounter. The reporter noted in the first engagement that Eddy, with a swift right to Luby's nose, knocked him down and out in the first round. The other two were more deliberate—clawed some, wrestled, catclashed as catch could, up and down, hip and thigh, until both were done up. Then a draw was called. It is said that the boys are heartily ashamed of this unseemly proceeding, and now declare themselves out of the ring to stay.

—A very interesting Easter program was rendered at the school house Sunday afternoon. We thank the young folks for the interest they manifested in their several parts and the manner in which they were executed.

—Robert Gar, of Eugene, met with a slight accident Monday eve. He broke the axle of the rear wheels of his buggy. The boys recommended him to Dr. Wm. Tripp, and when last heard of he was inquiring for said gentleman's office.

—James Hays was initiated into the Workman lodge last evening. One of the boys meeting him this morning, noticing his paleface and unkept condition, remarked, "What's the matter, Jim?" With a woeful expression, he uttered these words, "That blamed goat is a terror."

Harper, Louis Soverns, Chas. Thomas, Sam Templeton and Chas. Burgess. All report a nice time. However upon their return,

a stranger passing by was attracted by the cries of "Help! Oh, save me, Charlie!" Upon a closer investigation, he found that the wagon instead of being turned over was resting on a siding place, all its occupants standing by, wondering why it had not tipped over.

Letter from R. P. Caldwell.

EVERETT, WASH., April 9.
A. P. Bettersworth, Jr.,
Junction City, Or.

DEAR SIR—I send you by to-day's mail a paper published in Everett, the Daily Herald, which will give you a clearer idea of Everett as it now is and its future prospects than I could write. All the enterprises and industries noted in the paper seem to be permanent fixtures, except that the force now employed by the Great Northern Railway may be reduced somewhat as their work of improvement nears completion.

There are a goodly number of men employed here in industries not mentioned in the paper, in improving the streets, grading lots, putting up buildings, etc. The sound of the hammer can be heard in all directions continually. It is estimated that the population of the city has increased 4,000 since last summer's enumeration. That would make Everett a town of 12,000 inhabitants.

The climate is very much the same as there, except that it is slightly cooler here. The past week was a stormy one up to Easter Sunday. Since then the weather has been fine.

Give my regards to old neighbors and friends.
Yours truly,
R. P. CALDWELL.

P. S.—Find enclosed \$1.50, which will indicate to you that I want to renew my subscription to the BULLETIN.

J. H. Miller invites the people of Junction and vicinity to call and see the new 1901 Rambler bicycles. If you are thinking about buying a wheel it will pay you to look at the Rambler before you make a purchase. Just notice the number of these wheels in use. That is the best advertisement it can have.

The Weatherly Creamery Co., of Portland, have broke ground for a new building, 50x100, two stories high, on Third and East Morrison streets. The first floor will be all one room, in which they will operate one of the largest creameries on the coast. The business of this company is increasing so rapidly that a larger building is a necessity.

What you ask for . . .

is what you always get here. You are never urged to buy something "just as good."
