BANDS OF ROBBERS.

Depredations of Thieves and Pirates Increasing in Vicinity of Peking.

Berlin, April 30.—Field Marshal Count von Walderssee in a dispatch from Peking, reports that marauding has increased near Hosiwu and Matu, and that junks used as transports between these places have been attacked. Lieutenant Colonel Arnstadt has been sent from Tien Tsin to the disturbed district in command of a composite column. Count von Walderssee also reports, under Peking date, as follows: "Colonel Hoffmeister, commanding the Fourth infantry and two companies of mountain artillery, attacked the enemy April 23 by the great wall, 10 kilometers south of Hai Shan Kwan, and forced them to retire with heavy losses into Shan Si. We lost four wounded and captured four flags and four old pattern guns. General Voyron intimates that he intends to evacuate the neighborhood of Shan Ting and return to Pao Ting Fu. His extended outposts remain at Sin Lei. I am keeping a force at Anshuling pass."

In Pursuit of the Chinese.

London, April 30.—A Reuter dispatch from Peking says the headquarters staff has received a telegram from a British officer accompanying the expedition to the effect that on April 23 the Germans crossed into Shan Si through the Kouk Nau and Chang Chen Liu passes, in pursuit of the retreating Chinese, whom they followed 18 miles, fighting a sharp action. The French troops remained in occupation of the passes. The Germans returned April 25, and the French handed over the passes to them and returned to their previous outposts. The Germans are said to have had four men killed and five officers and 80 men wounded. The Chinese loss is not known.

MEXICAN MINISTERS.

Diplomatic Relations Resumed With Austria and American Republics.

Washington, April 30.—A complete rapprochement between the governments of Austria and Mexico has been brought about, and as a result each country is about to send a minister to the other. This terminates an international estrangement dating back to the days when young Maximilian of Austria sought to gain a foothold in Mexico, and lost his life in the adventure. A bill has passed the Mexican congress providing for a minister to Austria at a salary of \$15,000 annually. Austria will take similar action by sending a minister to Mexico, and this will close the long and historic separation.

The Mexican government has also taken steps to resume diplomatic communication with South American countries, the first move in that direction being the appointment of a Mexican minister to the Argentine republic. For many years there has been no diplomatic intercourse between Mexico and her sister republics on the southern continent, as there was little commerce between them, and few political questions requiring diplomatic representations. Recently, however, Argentina has made a friendly move by accrediting a minister both to Washington and Mexico City, and Uruguay has taken similar action. The selection of Mexico City as the place for holding the congress of American republics has had a further influence in inducing Mexico to extend her relations with South and Central America.

THE NEW COMET.

Brightest That Has Appeared to View for Over Nineteen Years.

Elkhorn, Wis., April 30.—The new comet which was observed this morning at the Yerkes observatory, at Williams bay, is said by astronomers to be the brightest that has appeared for 19 years. Notice was received yesterday by telegraph from Harvard university that a comet had been discovered at Queenstown April 23, and observed at Cape of Good Hope on the morning of April 25. Its position at that time was about 16 degrees southwest of the sun. Its position this morning was some 15 degrees north of the sun, indicating a very rapid northeasterly movement.

Nothing could be seen of the celestial visitor last evening at sunset, but this morning Professor E. R. Frost, assisted by F. R. Sullivan, saw the new comet appear above the horizon. About 20 minutes before sunrise it could be plainly seen, although the sky was quite bright. It was of an orange color, with two prominent kits or streamers. It remained visible until 15 minutes or more after sunrise, when it faded away in the growing light. It was too low in the sky to be observed by the 40 inch telescope, and the sky was so bright that nothing could be seen with the 12 inch instrument.

JAMES DOUGLAS REID DEAD.

Ex-United States Consul and "Father of the Telegraph."

New York, May 1.—James Douglas Reid, known to the telegraphers as "The Father of the Telegraph," is dead at his home in this city. He was born in Edinburg, Scotland, March 22, 1809, and came to America in 1834. He entered telegraphy in 1845, when he assisted in the organization of the Atlantic & Ohio telegraph company for the construction of a series of lines connecting Philadelphia, Pittsburg, Buffalo, Detroit, Cincinnati, St. Louis and New Orleans, the most extensive service projected at that time. Becoming acquainted with Prof. S. F. B. Morse, a mutual attachment sprang up between them, which led to Mr. Reid's appointment as superintendent of the Magnetic telegraph company, a line extending from New York to Washington. At the same time he retained his connection with the Atlantic & Ohio company. He entered the service of the Western Union telegraph company in 1850, where he remained until 1889, when he was appointed United States consul to Dunfermlie, Scotland, through the influence of Andrew Carnegie, who as a boy served as messenger and telegraph operator under Mr. Reid at Pittsburg. He relinquished this office in 1897. The statue of Prof. Morse in Central park, this city, was erected by the telegraph fraternity through the efforts of Mr. Reid.

WEARING OUT THE BOERS.

Lord Kitchener Reports on Capture of Small Force.

London, May 1.—Lord Kitchener continues the process of wearing down the Boers, who, however, are very active in the Kroonstadt district. Here they recently derailed two trains and also captured, after a severe fight, 25 men of the Prince of Wales Light horse, whom they stripped of their horses and accoutrements and then liberated.

Colonel Plumer's force captured a small laager of 45 men, including the notorious Transvaal State Engineer Munick, who planned the destruction of the Johannesburg mines in the spring of last year, and also his father.

Mr. Cummings, who is visiting Durban on behalf of the Canadian government, is favorably impressed with the possibilities of trade between Canada and Natal.

Robberies On the Panama Road.

Colon, Colombia, April 30.—Bands of robbers have for the past fortnight been raiding stations along the railroad line during the night time and have also been looting shops, wounding several persons during their depredations. Chinese have been the principal sufferers. The government has increased the force at the railroad stations and is doing its utmost to suppress the robberies.

Not Credited at Washington.

Washington, May 1.—The department of agriculture has received no information bearing on the report that has been circulated in England charging Boer emissaries with inoculating horses shipped to South Africa with glanders and other maladies. Secretary Wilson places no credence in the story. He says, however, that it is possible that it might have been done, probably by hostlers or other attendants aboard ship. There has been no examination of the horse shipments by the department.

CABLE FOR ALASKA

Contract Let For Line Between Juneau and Skagway.

MUST BE IN OPERATION WITHIN 90 DAYS

New York Man Agrees to Do the Work for \$70,000—System Must Be Guaranteed for Two Years.

Washington, May 1.—General Greeley has approved the recommendation of the board of signal officers making the award for laying the cable from Juneau to Skagway, Alaska, to W. R. Brixie, of New York, he being the lowest bidder. The contract price is \$70,000. The successful firm will be required to construct, lay and put in operation the entire cable system in 90 days from the time of the award. It will then be turned over to the signal corps for operation, being guaranteed first for two years. During the current week the fish commission steamer Albatross will cruise off the Oregon coast, making soundings in the hope of finding new species of sea life. At the conclusion of this cruise she will outfit at Seattle for a summer's cruise along the Alaska coast, when the study of food fishes which has been conducted through two past seasons will be concluded.

MAY BE ANDRADA.

Wrecked Three-Masted Ship Discovered Off Queen Charlotte Islands.

Vancouver, B. C., May 1.—The steamer Tees, arriving tonight from the north, brings news of the finding by Indians of a three masted ship wrecked off the coast of Queen Charlotte islands. Identity of the vessel is at present unknown. The bodies of several sailors are said to have been found nearby. The story of the wreck, as given by the Indians to the officers of the Tees, was exceedingly vague. The Indians either could not read the name of the vessel, or were not sufficiently alert to note it, for they could give no clue to the ship's identity. The masts of the craft were broken off short, and she was generally demolished. The only theory of the identity of the ship advanced, and that seems very improbable, is that the wreck may possibly be the Andrada, which took a pilot off the mouth of the Columbia last December, and has not been heard of since. It is suggested that she may have drifted north to the present location of the wreck.

DOZEN BUILDINGS BURNED.

Scores of Families Rendered Homeless at Pittsburg.

Pittsburg, May 1.—Fire at the corner of Carson and Seventeenth streets, South side, resulted in a property loss estimated at \$225,000, consumed over a dozen buildings and rendered a score of families homeless. The flames were discovered in the basement of a four story department store and in a very short time the entire building was burning furiously. It was in ruins within 30 minutes. A panic ensued among the customers and employes, which resulted in what started at first a report that eight persons had perished. This was happily found to be untrue after the fire had been controlled.

A shower of the burning timbers were thrown from the burning building, carrying destruction in all directions, and several other stores and a number of dwellings were swept by the flames. The losses are pretty well covered by insurance.

Bank Officials Arrested.

Seattle, May 1.—Frank Oleson, cashier, and J. S. Stangroom, bookkeeper, of the defunct Scandinavian-American bank of New Whatcom, are under arrest on warrants charging them with receiving deposits after the failure of that institution. Oleson was arrested here and Stangroom at Whatcom. Stangroom is now exchange teller of a Seattle bank, and lives here. Oleson was formerly secretary of the board of public works here, and a prominent politician and newspaper man. He says the arrests are the result of a mistake, and that the receiver of the bank has acted hastily.

Counterfeiters at Butte.

Butte, Mont., May 1.—Two of what is supposed to be a big gang of counterfeiters were arrested here today and identified by several people on whom they had passed bogus \$10 gold pieces. They got rid of quite a number. William Dougherty, one of them, has lived here for years, and is supposed to have only been connected with the gang a short time. John Mulligan, the other, has been here a much shorter time, and was a faro dealer until the law caused the games to close.
