Register: Emmett Mulholland, of Junction, is the new bootblack at Marx's barber shop. He is a worthy little chap that supports a widowed mother.

The commencement exercises in the Opera House last Friday night was the occasion for the assembling of a large and representative gathering of the people of Junction City and vicinity. Quite a number from Harrisburg were in attendance. The address of President Campbell, of Monmouth, was of a high order, and should have the influence it deserves on the minds of the pupils, and citizens as well. We are sorry to say that we cannot say anything favorable as regards the papers prepared by the graduates, as the noise in the hall was so great at all times as to render it impossible for them to be heard. From the continual uproar, one would imagine that a regiment of cavalry was being placed aboard a transport, bound for the Philippines. The graduating exercises of a school is no place for babies in arms, pug dogs and incoherent children. This is the second occasion on which our best citizens have been intimidated by the ill-bred deportment of some members of the community. The first time was when Neighbor John P. Meakin visited our city in the interest of fraternalism. It is a poor advertisement for the town.
