

METHODIST REVIVAL.

THE EVANGELISTIC MEETINGS CLOSED LAST SABBATH WITH FINE SUCCESS.

A week of arduous labor in the vineyard of the Lord closed here in the Methodist church last Sunday night, with highly gratifying result. The evangelist during the week had been Rev. R. S. Marshal of Oakland, Cal., who had been sent out specially by the Methodist Church to do evangelistic work and conduct revival meetings in Oregon. Mr. Marshal commenced in Albany, thence went to Corvallis, and says he was well satisfied with the results obtained as, taking both places, the number of conversions were about 200. The pastor of the Methodist church here said last Saturday noon, at the time when special services were being held in the church: "We have had of seekers to membership at least 75 come forward to the altar and there have been in reclamation and conversions about 40." Last Sabbath there was an all-day evangelistic service, which was commenced in the Sunday school at 10 a. m. The effect was very profound. At one time, during the altar service, there were about 40 present at the altar. After regular service, which commenced at 11 a. m., and lasted until near 1 p. m., there was a collation or basket-feeding in the basement of the church. This proved a very sociable, enjoyable and zestful affair. Beecher said some people think they have religion, but it is only the dyspepsia. It was evident this congregation have religion and not the dyspepsia. The spread was bountiful. In the afternoon there was a testimonial service; in the evening preaching, followed by an altar service, which closed Evangelist Marshal's campaign here. Thence he went to Lebanon where he will open fire on Sun about the 23d instant. After that he expects to return to Oakland, having left Oregon in a healthy religious condition, and see what new iniquity has come over from Frisco in the interim of his absence.

During the progress of the meetings Rev. Skidmore of this city proved a very powerful and efficient assistant.

Asked Monday morning what the result was of the work closed the night before, Pastor Skidmore replied: "There were about 25 reclamation; about 18 conversions; and 12 united Sunday evening."

Evangelist Marshal has a sister who resides about eight miles from here. He went there on a visit to remain until tomorrow, when he will leave for Lebanon.

LIVE NOTES BY THE WAY.

Albany Democrat: Some churches in their general assemblies back east have been laboring over the subject of creed revision. The less hair splitting there is in religion the better for the cause. There are enough plain essentials, so simple a child can read, that it should never be necessary to hunt for unexplainable things about which men will always differ.

Among those who have been traveling with Mr. C. L. Smith, expert dairyman and farmer from Minnesota, is Dr. Jas. Withycombe, Vice-director of the Oregon Agricultural College, who predicts that in the course of a few years, Western Oregon will be one of the principal dairying sections in the United States. He says dairying should be made the main branch of farming and not merely an incidental part of it.

A dispatch says two miners have taken out \$12,000 in gold from a quartz ledge in Josephine county, the rock being so rich that the gold was hammered out on an anvil.

Married.—At the Crook postoffice, Crook county, May 19, 1901, Mr. Dick Mulholland and Miss Eugenia Millhorn were united in marriage by Wallace Post, J. P.—Guard.

The Delinquent for July is certainly a credit to the publishers. The tri-color printing in the article on the Pan American Exposition is a work of art. This magazine is gradually earning for itself a place in the homes of the best people on the continent—and it rightfully belongs there.

Harrisburg Lodge, No. 39, A. O. U. W., in a contest for applications for membership with Jewel Lodge, No. 32, D. of H., was badly beaten. As a forfeit, the boys were at the expense of strawberries and cream. The decoration of the table with flowers and ferns was a model of beauty that showed a high degree of artistic skill. About 150 were served with these delicious dainties. About 30 of the Junction City force were guests upon the occasion. These people make themselves factors in the success of these gatherings.

The cemeteries of the F. & A. M., I. O. O. F., A. O. U. W., and the place for public burial, all near the city, were thronged on Decoration Day by hundreds of people who came to pay their tribute of flowers to the last resting place of their loved ones. In the meantime, the stranger's grave was not neglected. Good Samaritans, as if to appease the guardian angel, bestowed liberally their offering of beautiful flowers, and as a token, that although they were stricken away from home and friends, they had reculture by the hands of sincere Christian people. Of these, Oregon can boast her full share.

CHILDREN'S DAY OBSERVANCE.

VERY PRETTY, INTERESTING AND INSTRUCTIVE EXERCISES IN THE CHRISTIAN CHURCH LAST SUNDAY NIGHT.

Organist was Miss Gertrude Bushnell. All present rose and sang spiritedly: "My Country, 'Tis of Thee." Scripture reading by Bro. John Hansaker. Prayer by Elder Bushnell.

"Welcome to the Flowers;" poetical recitation, with music, by seven primary pupils. Refrain in chorus: "We are glad to meet you, we are glad to greet you, on this happy Children's Day."

The display of flowers in the church was fine, producing a beautiful and cheering effect; and as nearly all the children were dressed in white and many wore bright ribbons there was a display of sprightliness that was quite exhilarating.

Recitation: "Is It Nothing to You?" an appeal in verse to Christians in general to do their duty, by Lester Nichols.

Quartet, vocal, with organ accompaniment: Gertrude Bushnell, Georgia Nichols, Leah Lewis and Nellie Thornton.

ADDRESS BY BERTHA NICHOLS. "What Children's Day Is Doing."

At the National Convention of the Disciples of Christ, in 1880, it was proposed to set aside one Sunday each year as "Children's Day," and on this day to give the children an opportunity to contribute their pennies to help preach the gospel to the millions of children in the world who never heard of Christ and who are not loved by their parents as well as the dogs they play with. So in 1881, the first Sunday in June was the first Children's Day and the collection was about \$380; and each year Children's Day has grown until last year 32 states gave more than \$100 each and in these states 3111 schools gave \$11,000 and the whole collection was \$42,700. This year the motto is, "\$50,000 for Foreign Missions on Children's Day." In the last 30 years more than \$300,000 has been raised in this way, which is almost one quarter of the total amount handled by the Foreign Christian Missionary Society. This \$300,000 has been used to carry on the work in every heathen nation of the world. It was used to build chapels where the gospel might be preached, where the love of Christ might be told to those who never heard of Him; to build hospitals and orphanages where the sick can be cared for and the orphaned or deserted children can be taken in and kept from starving; and in this way the love of Christ is shown them and they are led to know that Christ is love. It has built homes for the missionaries, schools where they can teach the ways of civilization to the little ones and where they can plant the seeds of Christianity that are blossoming into so many souls for Christ. It is used to pay preachers, teachers and helpers. As President McLain said: "God only knows how much good the gifts of the children have done." When we consider that two-thirds of the children of the world have never heard of Christ; when we think that they never sing the bright, glad songs of praise and love to Him, but instead bow down and worship sticks and stones, and cows and monkeys, and pigs, snakes and lizards, and that instead of the Saviour; when we think that in India alone there are millions of child-widows under 12 years of age who are cast out to die and who it is a sin by their laws to help in any way, and who by their law have no right even to be alive; when we think of the hope and joy and love we can send into their lives by our Children's Day offerings let us not be selfish in our offering, for Christ said: "It is more blessed to give than to receive." Then, what must the blessings be to those who give to these little ones in the name of Christ who died for them?

EXERCISES CONTINUED.

Song and exercise by nine little girls of Class No. 4; a very pretty presentation. These little children all wore wreaths on their heads.

"The Message of the Flowers," by 12 boys of Class No. 4. A cross was in station on the platform. The cross was draped with garlands and after each boy had repeated a verse he advanced and placed flowers at the feet of Jesus—the foot of the cross.

Recitation, a story in rhyme, with a moral: "And the deacon pays the bill," well rendered, by Miss Hazel Moffett.

"The Call of the Nations," by 14 young ladies of Classes Nos. 2 and 3. There were seven on each side of the platform, the lines facing each other. The foreign nations were represented in their national costume. After one on each side had spoken, a Christian advanced and presented the Word of God, which was accepted.

Remarks were made by Mr. Henry Bushnell. He said that the most important part of the exercises had now been reached; he had reference to the offeratory. While the children would send in their pennies in the envelopes provided for that purpose, the larger children (the grown men and women) would be afforded an opportunity to contribute also. Which was followed by Mr. Bushnell and Mr. Hanks Hill taking up the collection.

The closing address was by Lester

McKallup, who delivered it in a very forcible and distinct manner.

After singing and benediction the gathering dispersed, and all went their way homeward, at 9:30, to wrap the drapery of their couches about them and lie down to pleasant dreams.
