AYE WILL PAY LANE COUNTY $57,460 TAXES

Railroad Figures are Checked By Experts and Items Are Found to be Correct

The Southern Pacific company this year will pay Lane county $75,640 in taxes. This figure was checked over by C. L. List, chief deputy in the tax department of the Southern Pacific railroad, under William Cobb. This does not include taxes on the Oregon & California and other branches, under Gentile, at the rate of more than $50,000 last year, the railroad states that it does not expect to pay this year. Failure to pay last year left a heavy deficiency in nearly all of the county departments which is not due to an increase of additional taxes since this. Taxes for this year are payable in two installments, the second and final payment being due June 10th.

The Oregon & California is in Rupes Tuesday afternoon statements that it anticipates a deficit from $50,000 to $60,000 this year in May or June. The case is now in the Circuit court of the United States supreme court for a determination of the amount. As reported by the railroad from the action of the Oregon & C. D. court that the taxes were due from the railroad for alleged failure to comply with the terms of the grant. If the decision is in favor of the railroad the county will probably be able to collect delinquent taxes in full. If the government wins the suit the county will lose all of the taxes assessed.
