Oregon and Washington Gazetteer and Business Directory for 1915-1916

R. L. Polk & Co. have just issued the 1915-16 edition of the Oregon and Washington Gazetteer and Business Directory, which is the only work of the kind published. It contains an accurate business directory of every city, town and village in Oregon and Washington; and the names and addresses of country merchants and professional men, lumbermen etc., who are located adjacent to villages; also lists of government and county officers; state boards, statutory provisions, terms of court, names of courts, names of post-offices, express, telephone and telegraph offices, justices of the peace, hotels, daily and weekly newspapers, besides much other information useful to all classes of business and professional men. A descriptive sketch of each place is given, embracing various items of interest, such as location, population, distance to different points, the most convenient shipping stations, the products that are marketed, stage communications, trade statistics and churches.

An important feature is the classified directory giving every business arranged under its special heading, thus enabling subscribers to obtain at a glance a list of all houses manufacturing or dealing in any particular line of goods.

The work generally is compiled to meet the wants of the business community and is so thorough as to deserve its liberal patronage.
Price \$9.00. Offices Seattle, Portland, Spokane and Tacoma.

W. Al Jones of Wallewa county offers to combine position of State Fair Secretary and Farmer at one salary, saving \$1500 a year.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; unless you stop this now by getting Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
J. C. HENNEY & CO., Toledo, Ohio.
Sold by Druggists. Takes Hall's Family Pills for constipation.

News From Springfield High School

Miss Grace Edgington of the U. of O. gave an interesting talk to the English VI class Wednesday morning, on the subject "The Short Story." Miss Edgington has worked along this line for about nine years and many points of great interest and help were brought out for the benefit of the students. She says "that there is immense pleasure as well as immense profits in writing short stories."

Melvin Fenwick spoke to the Civics class Thursday on the work of the Legislature of which he was a member. His talk took up the method of procedure in the legislative body and a number of interesting incidents relative to the last legislature were also discussed.

From 2:30 to 6 o'clock Friday evening there was a great scene of activity about the H. S. building. The afternoon classes were shortened and at 2:30 the high school students set to work high school grounds. Each class planted a flower garden; the old tennis court was cleaned of the spring grass; new backstops were placed at each end of the court, of such width to make a double court possible; and work was begun on widening the court.

At 6:15 all the laborers enjoyed a merry feast which had been prepared by the girls and teachers.

The Literary program given Saturday night was well attended and those who were in attendance report it to have been a very interesting one.

The high school baseball team was unsuccessful in the game with the Eugene Business College Thursday evening. The game was played on the Midway Park grounds and resulted in a score of 19 to 4.
