

AT YOUR SERVICE GENERAL—
I KNOW HOW LITTLE SATISFACTION
THERE IS IN THE
OLD KIND.

JUDGE IM SO GLAD YOU
CAN SPARE ME
SOME, IT CERTAINLY
IS THE ONLY
REAL TOBACCO
CHEW.

THE GENERAL FORGOT IT AND THE GOOD JUDGE ACCOMMODATED HIM

TAKE a small chew of "Right-Cut"—and see for yourself that a nibble of real tobacco is better than a mouthful of the old kind.

Richer, more satisfying and lasts you longer—because "Right-Cut" is the Real Tobacco Chew.

Mellow, sappy, rich tobacco—seasoned and sweetened just enough. A ready chew, too—you don't have to grind it. The taste comes steady.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, cut fine and short ahead so that you won't have to grind on it with your teeth. Grinding on ordinary candied tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered with molasses and fillers. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

RURAL SCHOOL TERM SHOULD BE EXTENDED

By P. P. Claxton,
U. S. Commissioner of Education

In most States school days for country children are fewer than for city children. The average length of school term in cities of the United States is one hundred and eighty-five days; in rural communities one hundred and thirty-eight days, a difference of forty-seven days. In some States the difference is much greater than this average. In many counties the average length of the rural school term is less than one hundred days, and in some districts it is less. On the other hand, in the States of California, New York and Connecticut, the country schools are in session one hundred and eighty days in a year, and in several other States almost as long. The country schools of Rhode Island are in session one hundred and ninety days in a year.

If all children are to have an equal opportunity for education we must even up the school terms of the country and give to all country children at least as many days as are now given to city children. One hundred and eighty-five days of schooling a year for all children will not be too much. There are countries in which the schools, both for city and country, are in session from two hundred and twenty to two hundred and fifty days or more in the year. American children need as much education as those of any other country, and this applies to the rural as well as urban districts.

AN AGRICULTURAL COUNCIL

By T. N. Carver,
Professor of Economics, Harvard University

Every city has its chamber of commerce or its Board of Trade. The purpose of such an organization is to study economic and business opportunities of the city and promote enterprises which will help to build the city. Does any one know of a good and sufficient reason why every rural neighborhood ought not have a similar organization?

In Germany they already have such organizations. They are generally called the "landwirtschaftsrath" or agricultural council. Some students of the problem of rural organization are strongly of the opinion that such an agricultural council is necessary before much can be done for the bettering of rural credit or the marketing of farm produce. There is no object, for example, in having more capital in a farming neighborhood unless the farmers know without any guess-work just how to use that capital so as to increase the production and the profit of their farms. If all the leading farmers of a neighborhood would lay their heads together and talk over the situation and study the opportunities for new investment, they would be less likely to make mistakes than if they work secretly, as separate individuals.

CITY ASKS PAVING COMPANY

(Continued from Page 1.)

five years and now asks that necessary repairs be made.

This action was taken at the direction of the mayor and street committee, who have been considering the matter for some time, and will be further discussed by the council next Monday. The paving company is asked to advise the city by next Monday what it intends to do.

FATHER WRITES SLOGAN SON DONATES POSTER

1915 Rose Festival Receives Work of Art from Famous Oregon Boy.

Portland's 1915 Rose Festival has a unique poster—the most artistic ever used—and it is the work of an Oregon boy, Fred G. Cooper, now one of the world's foremost artists. His father, J. C. Cooper, of McMinnville, Oregon, wrote the winning slogan, "The Whole World Knows the Portland Rose." At his father's personal request young Cooper donated the poster to incorporate the slogan. Portland has cooperated with Seattle, Tacoma, Walla Walla and Spokane in securing conventions that will bring more than 250,000 visitors to Washington and Oregon.

"What's that you call your mule?" "I call him 'Corporation,'" answered the old colored man. "How did you come to give him such a name?" "F'um studyin' the animal an' readin' the papahs. Dat mule gets more blame an' abuse dan anything else in the township an' goes ahead havin' his own way jes de same."—The Register.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.
