THE CRIPPLE EXPLAINS HIS HURRY TO THE GOOD JUDGE

THOUGHT he was using too much tobacco—Bought a pouch of "Right-Cut" the Real Tobacco Chew and says a small chew of "Right-Cut" gives him more real tobacco satisfaction and comfort than a wad of his old kind.

And he doesn't have to work it to get the taste, because "Right-Cut" is a ready chew. Get a pouch and try it for yourself.

Take a very small chew—less than one-quarter the old size. It will be more satisfying than a mouthful of ordinary tobacco. Just nibble on it until you find the strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, how it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

It is a ready chew, cut fine and short shred so that you won't have to grind on it with your teeth. Grinding an ordinary cased tobacco makes you spit too much.

The taste of pure, rich tobacco does not need to be covered up with molasses and licorice. Notice how the salt brings out the rich tobacco taste in "Right-Cut."

One small chew takes the place of two big chews of the old kind.

GAS ROOM HEATERS are inexpensive to buy—cheap to operate. They are their cost over and over again in the colds, sore throats and other ailments they prevent.

For Fall and Spring Heating they are ideal. Useful during the colder months for auxiliary purposes—to help out the regular stoves or furnaces—to warm rooms quickly in the morning.

See them at the Gas office, 957 Willamette Street, or Fellman-Newland Co., 625-49 Willamette Street, Eugene.
