

## Style Means Good Taste

The worth of a garment is not measured by its cost, but rather by its fitness for the time—the place—the occasion and the person. The best time to order garments is now. Every day brings an occasion to wear them.

## FORESTS PAY IN \$2,500,000 FOR THE GOVERNMENT

Portland, Ore., August 12.—The National Forest turned into the U. S. Treasury during the fiscal year ended June 30, 1915, nearly \$2,500,000, an increase of more than \$40,000 over the receipts of the previous year, according to a statement just issued by the Forest Service. The timber sales, which

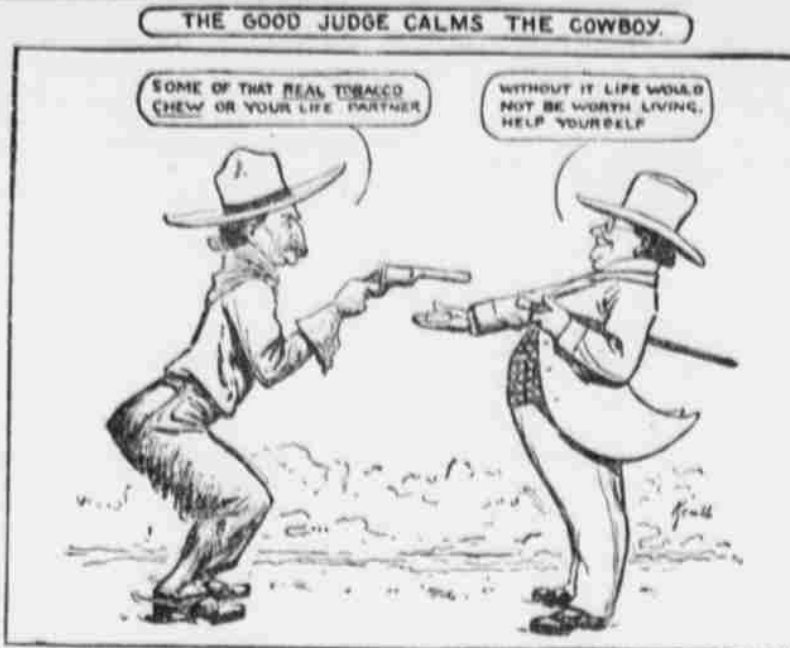

"The census bureau is working so that every state will have a similar law," said Dr. Roburg. "Practically the same system has been in vogue in most European countries for many years, in some of them for a century or more, and 15 states of the union have adopted it."

The law is especially advantageous in disputes in the settlement of estates. The litigants will be able to get a certified copy of the birth or death certificate of any person connected with the estate. It will also mean much in the isolated sections in getting a line upon the increase of population of the school districts.

Dr. Roburg was sent to the Orient over two years ago by the state to study tropical diseases, so that he would be able upon his return to successfully combat any of the plagues that might start in this state from persons coming across the Pacific from the Asiatic countries. He spent a year in Manila, where he was granted the degree of tropical medicine, and spent the remainder of his time at various points in China.

amounted to \$1,164,000 yielded on account of the present depressed condition of the lumber industry about \$79,000 less than those of the previous fiscal year, but the gain was made possible by larger revenues from other sources. The grazing receipts, which totaled \$1,125,000, increased \$127,000 over last year, and the waterpower receipts, which amounted to not quite \$90,000 showed an increase of nearly \$42,000.

The demoralization of the turpentine industry on account of the war's curtailment of the naval stores market caused the receipts from the sale of turpentine privileges on the National Forests to drop to about \$9,000, as against nearly \$15,000 last year. The sale of special use permits, under which all sorts of enterprises from apiaries to whaling stations, are operated on the Forests, yielded nearly \$78,000, an increase of nearly \$37,000 in the revenue derived by the settlement of trespass cases in which Government timber had been cut without intent to defraud, the revenue from this source being only a little more than \$3,000. More than \$7,000, however, was collected from other timber trespass cases. Grazing trespass cases yielded nearly \$6,000, an increase of about \$1,000; occupancy trespass case, which occurred in only one of the seven forest districts, turned in something less than \$250; about \$60 was derived from turpentine trespass cases, and \$660 from fire trespass cases, the latter being more than \$7,000 less than the amount collected in the previous fiscal year for damage to Government property through fires carelessly or wilfully started in or near National Forests.

**CUT** loose from the big, bulgy wad. For a clean, small chew there's nothing like it. It is the Real Tobacco Chew that you hear men telling their friends about.

You get the good of the richest tobacco grown.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

THE REAL TOBACCO CHEW IS NOW CUT TWO WAYS!! W-B CUT IS LONG SHRED. RIGHT-CUT IS SHORT SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is the Real Tobacco Chew. That's why it costs less in the end. The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.
