## FIRST NATIONAL BANK, EUGENE, OREGON.

Established 1883

Capital and Surplus \$300,000.00  
Interests on Savings Accounts and Time Certificates

ful play-ground.

The citizens of Ashland have voted for and authorized a bond issue of \$175,000 to be used in carrying out a well planned scheme of developing the springs and beautifying a fine park system. A contract has been made, at a cost of \$100,000, with a firm of engineers to develop mineral springs that have been acquired for the city and pipe the water into town. These engineers are under a bond of \$50,000 to deliver the water in the city in unimpaired condition. Twenty-one miles of three and four inch pipe will be required to carry the water. The plant when completed will have a capacity of 150,000 gallons a day. Lithia, Soda and Sulphur waters will be distributed in the park system, and at the Southern Pacific Station grounds, where they may be used, free of cost, by all who desire to do so. One of the proposed features connected with the springs development is the erection of a modern, up-to-date sanitarium, where the visitor in search of health may have the benefit of the most scientific methods of water treatment.

Realizing that the bulk of the visitors to a resort city come for pleasure and recreation than to take the water cures, the most comprehensive plans for providing for them have been worked out. Fifty-one acres of ground have been bought to be used in creating one of the most beautiful parks in America. Thousands of dollars will be spent in the construction of drives and walks in this park. One of the attractive features of this park is the beautiful stream of clear, cold water that comes rolling and tumbling down from the snow clad top of Mt. Ashland. Along its banks will be placed seats where those who are weary in body and soul may find rest and joy listening to its song as it leaps and plays like a happy child. Play grounds for the children, full of all sorts of things that please and delight the hearts of youngsters, and pools of clear, cool water, that just coax little feet to splash around in them, will be found in this new fairyland. A great band stand, where one can hear the best of music at daily concerts, and a pavilion with a fine floor, where the strains of the orchestra will not permit ones feet to keep still, will provide amusement for older folks. The touring motorist will find a camp ground furnished for his pleasure and comfort. Gas to cook with, storage places for food, an abundance of cold drinking water, gushing out of a beautiful spring in the hillside, and all needed sanitary conveniences will tempt him to lengthen his stay amid these pleasant surroundings.

Scattered all over the park are springs of mineral waters and pure drinking water. Oregon can never go dry in Ashland Lithia Park, and the most exasperating thirst can be assuaged in copious draughts of these healthful and palatable waters. Just as Salvation is said to be free, so here health can claim the same distinction, for those who will partake freely of this bounteous store of Nature's medicinal waters will find a panacea for bodily ills and discomforts, without money and without price. Those who are on pleasure bent will find enjoyment in the scenic wonders that Southern Oregon is so rich in. Crater Lake, one of the wonders of the world, Josephine Caves, Ashland Canon, Klamath Lake and innumerable other interesting places are accessible from Ashland. The great paved boulevard that Jackson County has built at a cost of half a million dollars will bring everlasting delight to the motorist, and, as he glides swiftly over its smooth surface, he will feast his eyes and soul on the rare charm of the vista of orchards, green fields and distant hills that make the Rogue River Valley a close competitor to the Garden of Eden.

This little city of Southern Oregon is changing its history, turning over a page in the story of its progress, and in building for itself a new and better plan of activity as a resort city is making a pleasure spot for the people of all Oregon. Helping itself, it is helping to exploit Oregon's attractions for the tourist and is setting the pace for the rest of the State in bringing about a greater and wiser utilization of the natural gifts with which we have been so richly blessed. Ashland is said to be the first city in the country to undertake this kind of a civic improvement in just this way. Surely it is an interesting development of some of the State's natural assets, well worth the knowledge and attention of the citizens of Oregon.

WHEN sun and work are boiling the juice out of a fellow's hide, a satisfying chew beats a smoke.

Some reasons why you hear so much about the Real Tobacco Chew: the good tobacco taste is there, it lasts, less grinding, less spitting. One small chew takes the place of two big chews of the old kind.

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much. One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.

## Notice

Water for irrigating and sprinkling purposes can be used only during the HOURS specified—6:00 to 8:00 a. m. and 5:00 to 9:00 p. m. Therefore if the water is used for such purposes at other intervals during the day the company will install meters where this abuse is being practiced. It is a duty involved upon the company to protect the city from fire and furnish an adequate supply of water to all, therefore we will thank our patrons if they will assist us in trying to protect the interest of themselves as well as the city at large.
