The shortest railroad in America is a quarter of a mile long, and cost less than eight hundred dollars when built. The rails are of wood, with strap-iron facings. This tiny railroad brings Fort McPherson, on the Artic Circle, in touch with settled parts of Canada. It is owned by the Hudson Bay Company. The flat cars—there are but two—are pushed by hand along the rails. During the sixty years since the Grand Island Railway was built, it has earned over a million dollars.—Clipping.

## WAR'S HEAVY TOLL OF YOUTH

New York Mail: War's toll is taken in the flesh of youth. It is the future of the land, not its past, that follows the flag to death. More tears are shed for sons than for fathers, husbands or brothers. It is not only from among those of greatest youthful vigor that war does the recruiting; it sacrifices many who are still mere children. Midshipmen of 15 are going down with their ships in every naval engagement of the present war. Others hardly older are filling the ranks of the infantry and guides.

Our Civil War was fought by armies in which the average age of the enlisted men was only 19 and of officers but 23. I am a country which raises its troops through voluntary enlistment, boys are bound to be in the majority. For it is youth which rushes to the colors without a thought of the horror that lies ahead, without the outstretched hand of dependents to hold it back.

One sickens when he contemplates what this slaughter of Europe's youth means to the future of science, art and business. We shall never know what a wealth of budding genius withered at the cannon's mouth.

He had no enemies, you say?  
My friend your boast is poor;  
He who hath mingled in the fray  
Of duty that the brave endure  
Must have made foes. If he has none  
Small is the work that he has done  
He has hit no traitor on the lip;  
He has cast no cup from tempted lip.  
He has never turned the wrong to light;  
He has been a coward in the fight.  
—ANON.

## THE GOOD JUDGE GETS ALIVE ON THE RETIRED JUDGE

VERY INTELLIGENT LOOKING OLD GENTLEMAN—TOO BAD HE'S HARD OF HEARING.

HE WAS THE BEST JUDGE THIS STATE EVER HAD. IT WOULD DO YOU GOOD HOW TO HEAR HIM TALK THE MERITS OF THE REAL TOBACCO CHEW.

**MAYBE** you're one of these reformed grinders yourself and know how they like to meet and talk about the little chew that satisfies. When you meet a non-member puddling a big wad in his cheek don't you feel like stopping him and giving him the facts about *the Real Tobacco Chew?*

A little chew of pure, rich, mellow tobacco—seasoned and sweetened just enough—cuts out so much of the grinding and spitting.

ASK YOUR DEALER FOR W-B CUT CHEWING TOBACCO. IT IS THE NEW REAL TOBACCO CHEW—CUT LONG SHRED.

Take less than one-quarter the old size chew. It will be more satisfying than a mouthful of ordinary tobacco. Just take a nibble of it until you find the strength chew that suits you, then see how easily and evenly the real tobacco taste comes, how it satisfies, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is *The Real Tobacco Chew*. That's why it costs less in the end.

The taste of pure, rich tobacco does not need to be covered up. An excess of licorice and sweetening makes you spit too much.

One small chew takes the place of two big chews of the old kind.

Notice how the salt brings out the rich tobacco taste.
