These New
Post Toasties
Are the first and only corn flakes that are
"good to eat" without milk, cream or sugar.

Try some fresh from the package, and once at you get a wonderful true corn flavour—vastly different from that of the ordinary "corn flakes" you may have had.

Notice the little pearl-like "puffs" on each flake—a characteristic that is distinctive; also that when cream or milk is added they don't mush down, but keep their body and appetizing crispness.

There's a Royal Treat in every package of
New Post Toasties

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
