Grocery Buying
Doesn't Require

the time and thought and attention that it used to.

Nowadays, at this modern store, we take care of the "worry part" of your grocery buying—we stand between you and impure foods and undesirable goods,—and the cost is no more than for inferior goods.

THE GOOD JUDGE AND THE OLD-TIMER UNDERSTAND

JUDGE, LOTS OF MEN TAKE A BIG CHEW OF W-B CUT AND GRIND ON IT JUST AS THEY DO ORDINARY TOBACCO— THEN THEY SAY IT'S TOO STRONG.

THAT'S RIGHT, BUT THEY WILL LEARN THAT A LITTLE CHEW AND VERY LITTLE GRINDING GIVES FULL TOBACCO SATISFACTION.

A SMALL chew of W-B CUT Chewing—the Real Tobacco Chew, new cut, long shred—satisfies, because it is rich tobacco. Just for that reason you need only a small chew; that's why it lasts so much longer than the ordinary kind. Many men are now free from the big bulky wad of ordinary tobacco.

"Notice how the salt brings out the rich tobacco taste"

WHY WE WISH YOU
A Happy and Prosperous
New Year

We wish you happiness and prosperity during the coming year, first, because the men who direct the affairs of this Company desire to express the feeling of good will toward their neighbors, natural in mankind, and second, because

The prosperity of our Company depends upon your prosperity. No utility company can ride above the level of the community which it serves.

Wishing you a prosperity in which we want to share may seem to be a selfish attitude, unless it is remembered that the relations between the public and our company are reciprocal.

Service companies do vital work in the modern municipality—work contributing in no small measure to the progress and welfare of every inhabitant.

Utility organizations perform a large share of the co-operative effort essential to civic advancement—toward the success of industries—to the reduction of physical labor and increased safety of life and property—toward domestic economy and commercial vitality—in the promotion of better living and working conditions.

The prosperity of the utility companies and the people are interdependent.

A utility organization must be reasonably prosperous to its work efficiently and thus contribute fully to the prosperity of the public.

We ask the same good will from citizens which we feel and express towards them.
