HANDY HUSBAND
Knew how to Get Part of the Breakfast
"I know one dish I can prepare for breakfast as well as any cook on earth," said my husband one morning when the cook was ill and he had volunteered to help get breakfast. He appeared with his dish and I discovered it was Grape-Nuts which, of course, was easy to prepare for it was perfectly cooked at the factory, but it was a good illustration of the convenience of having Grape-Nuts about.
"We took up Grape-Nuts immediately after returning from a five years' sojourn in a hot country. Our stomachs were in bad condition and we were in poor health generally.
"In a day or two we liked Grape-Nuts better than any other kind of food on the table. We both gained steadily in health and strength, and this was caused by Grape-Nuts and Postum.
"A friend of ours had a similar experience. She was seriously ill with indigestion and could find nothing to eat that would not give her heartburn and palpitation, especially at night.
"She found that a small dish of Grape-Nuts with cream made her a satisfactory supper and gave her a comfortable night's rest. In a short time she gained several pounds in weight.
"There's a Reason." Name given by Postum Co., Battle Creek, Mich.
