The readers of this paper will be pleased to learn that there is at least one remedial disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

SEATS DON'T FALL AT SELLS-FLOTO CIRCUS

SINCE NEW INVENTION

Even Travelling Show Has Taken "Safety First" Work to Heart

Thru the invention of William Curtis superintendent of the Sells-Floto circus, which will appear at Eugene tomorrow, no matter how the wind may blow, no matter what storms there may be, there is no danger in the circus. The seats cannot fall, they are gunged together with cables of steel instead of being placed by the old "toe-pin" system. They can even be erected on a paved street and hold safely twice as many persons as the room provides for. The poles of the circus cannot be blown down, for the same reason, that their guy ropes are of steel. The tent cannot burn because it has been fireproofed. Not a feature has been neglected about the great Sells-Floto circus to make it absolutely safe.

According to the promises that have been made, there's much that is worth seeing this year. Among the exciting things is to be the riding of Rosa-Rosalind, who is the only woman to master the feat of somersaulting from horse to horse. There's a baby elephant and three herds of grown-up ones, including Snyder, the elephant who walks like a man and the only elephant carrying its trainer on its tusk. There are forty fun-making clowns and Jumping Jupiter, the champion auto hurdling horse of the world. Then as special features there are Jess Willard, "champion heavyweight of the world," and Frank Gotch, "wrestling champion of the world." Jess Willard will make his first appearance in the arena in his old role of cowboy at the head of the Buffalo Bill Wild West Cowboys. His second appearance will be in concert when he will appear in ring costume and with his sparring partner illustrate how he won the championship and the punches given in his latest fight with Frank Moran at Madison Square Garden. Frank Gotch, the hercules of the wrestling world, is the man who has defeated the universe. These two world's champions, heading an all champion program with the world's champion circus cannot fail to attract both young and old.

Is Sick; Becomes Insane

308 X YES IS A VOTE FOR YOUR CHILDREN

ONE NORMAL NOT ENOUGH

Oregon has but one Normal School. This school is located at Monmouth. Excellent as is the work of this school it is utterly unable to supply but a small part of the need for trained teachers for the State.

Of more than 6,000 school teachers in the public schools of Oregon, but 13 per cent have been trained for their profession of teaching in Normal Schools.

It is a well established fact that our one Normal School cannot supply the needs of the entire state. That is why we ask for your work and vote for the proposed Eastern Oregon State Normal School at Pendleton, Oregon.

GIVE EASTERN OREGON SQUARE DEAL

Eight counties in the Willamette Valley have employed during the past five years, 203 teachers who have graduated from the Monmouth Normal as against 29 Monmouth Normal School graduates for the eight leading counties of Eastern Oregon.

During the past five years the attendance of students from nine Willamette Valley counties was 677 students as against 9 students from nine of the leading counties of Eastern Oregon.

Owing to the crowded condition of our one Normal at Monmouth and also the distance and expense of attending, students from Eastern Oregon are compelled to go to neighboring states to secure their training as teachers.

ONLY COSTS 4 CENTS PER \$1,000

The annual maintenance cost of the proposed State Normal School in Eastern Oregon amounts to but one 25th of a mill or 4 cents on a thousand dollars of taxable property. Isn't it worth this to have your children trained to become useful and productive citizens?

STRONG ENDORSEMENTS

Among those who strongly endorse the establishment of the proposed Eastern Oregon Normal School are Governor Withycombe, J. H. Ackerman, President of the Monmouth State Normal; W. J. Kerr, President of the Oregon Agricultural College; P. L. Campbell, President of the State University; Robert C. French, former President of the Weston Normal, and practically all of the leading educators of the State. J. A. Churchill, Superintendent of Public Instruction, voices the sentiments of those who are most familiar with the need of more adequate Normal facilities when he says:

"Oregon's greatest need for its rural schools is the teacher who has had full preparation to do her work. Such preparation can best come through Normal School training."

"I trust that the voters of the state will assist in raising the standard of our schools by establishing a State Normal School at Pendleton. The location is central, the interest of the people of Pendleton in education most excellent, and the large number of pupils in the public schools will give ample opportunity to students to get the amount of teaching practice required in a standard normal school."

All the above educators insist that a Standard Normal School must be located in a town of 5,000 or more population and having enough grade pupils for teaching practice.

VOTE RIGHT

By voting YES for No. 308 you will help to give to the school children of Oregon the same advantages enjoyed by the school children of our neighboring states.

Vote YES for No. 308.
