Beware of Ointments for Catarrh that Contain Mercury

LEGISLATURE MAY KEEP STATE BUDGET IN 6 PER

school which is to be built at Portland, \$50,000 is requested for a new building before the \$50,000 which was appropriated by the last legislature for the school is spent. The last appropriation was contingent upon \$25,000 being raised from other sources to be added to the appropriation. It is announced that this sum has just been completed, so \$75,000 will now be available and Mr. Taxpayer pointed out that the legislature could wait until that was used up before making another appropriation for new buildings.

This does not affect the school's request for \$78,805 for current expenditures, \$26,605 for replacements and betterments and supplies, and \$1203 for contingencies.

State Normal Asks \$36,000 More. By its regular millage tax and fees the Oregon State Normal at Monmouth will receive approximately \$57,600, and it is asking for an additional \$36,000 for new buildings. Mr. Taxpayer would eliminate the request for \$50,000 for enlarging the women's dormitory and \$5000 for street paving.

The suggested slash in the Oregon State hospital appropriation also applies to requests for new buildings. The suggested cut is the request for \$65,000 for an addition to the receiving ward.

Mr. Taxpayer says the Oregon State Tuberculosis hospital can easily get along without the \$14,300 it is asking for new buildings, one being a new pavilion, another a barn and the other a residence for the superintendent.

The Oregon Historical society is asking for twice the amount it received from the last legislature. It is asking for \$24,280, which is said to be at least \$10,000 more than should be allowed.
