SCHOOL NEWS.

By RUTH SCOTT.

Throughout the last week all thought was directed toward the final examinations which were held Thursday and Friday. The second semester begins today. A great many new students are expected to enter our famous halls of learning.

Harold Perkins visited school Monday morning.

William Hill, student body president and John Dimm went to Eugene Tuesday afternoon, and, after hearing the concert given by the Albany orchestra assisted the musicians in locating our town on the map.

There is a great difference between the ancient Latin language and our present day English. So the rising generation should beware. For a new "lingo" made by the combination of these two is likely to be established in the schools, as the partition between the Caesar and English rooms is insufficient to keep these two languages from freely mingling.

Some great snow battles were staged on the "campus" the first part of the week.

John William, Herbert Moore, and Norman Byrne visited S. H. S. Wednesday afternoon.

Miss Anne McCormick, the domestic science teacher of the Springfield schools, addressed the students Wednesday morning in the interest of the domestic science course. If more of the girls do not take the course it will be necessary to discontinue it.

Our grave and reverend seniors are now on the home stretch. There is only one more semester between the and their fond farewell to our noble S. H. S.

Blossom Time in the Golden State

A friend just back from Southern California says: "The weather was fine, in fact too warm for heavy clothes. Many were bathing at the beaches. Oranges were ripe in the valleys, while the mountains nearby were covered with snow."

With warm sunny weather it will not be long before the blossoms on the trees will be everywhere announcing that spring time is here.
