

He Profits Most Who Serves the Best

We do a great deal of advertising in various ways, but we believe that our most favorable publicity which we receive is through the medium of a "satisfied customer." A feeling of security is always shown by our customers, because they have learned to rely on the quality of our goods, the superiority of our service and the fairness of our prices.

The extent and quality of our trade and the obvious confidence reposed in us by the public is pretty convincing evidence that we have always given superior service.
