A Symbol of Health

The Pythagorians of Ancient Greece ate simple food, practiced temperance and purity. As a badge they used the five pointed star which they regarded as a symbol of health. A red five pointed star appears on each package of Chamberlain's Tablets, and still fulfills its ancient mission as a symbol of health. If you are troubled with indigestion, biliousness or constipation, get a package of these tablets from your druggist. You will be surprised at the quick relief which they afford. Obtainable everywhere.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

TURKS TO LOSE JERUSALEM.

City May Again Become the Capital of a Jewish State.

Jerusalem, the holy city of both Jews and Christians, is likely as a result of this war to be permanently lost to the Turks, who already have been deprived of Mecca, the holy place of the Mohammedans. That the ancient city which was for so long the center of the worship of Jehovah may again become the capital of a Jewish state under the protection of the allied powers is more than a possibility.

Jerusalem was taken by the Saracens in 637 and held by them until the period of the crusades. After withdrawing for years the medieval crusaders, whose quest was the holy sepulcher, Jerusalem was at last rescued in 1099, the crusaders also putting 70,000 "infidels" to death. A Christian kingdom was founded, which continued until 1187, when the Saracens under Saladin captured Jerusalem.

Saladin's behavior was in marked contrast to that of the Christian captors of Jerusalem, for he proclaimed a general amnesty and permitted the surviving Christians to depart unharmed. In 1217 Jerusalem was taken by the Turks, but was surrendered to the Emperor Frederick II. In 1228, the crusaders again entered Jerusalem in 1243, but it was taken from the Christians in the latter part of the century. Four centuries ago the Turks gained undisputed possession of Jerusalem, and, except for the brief period in 1799 when it was held by the French under Bonaparte, the ancient Jewish capital ever since has been beneath the flag of the Ottoman empire.

Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

Chocolate Sponge Roll

1 1/2 cups flour	2 tablespoons melted shortening
1/2 teaspoon salt	1/4 cup hot water
1 cup sugar	1 teaspoon vanilla
2 eggs	2 teaspoons Royal Baking Powder
2 squares melted chocolate	

The old method called for 4 eggs and no baking powder

DIRECTIONS—Sift flour, baking powder and salt together three times. Beat whole eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

Booklet of recipes which economize in eggs and other expensive ingredients mailed free.
