### SPRINGFIELD IS PATRIOTIC

The Red Cross drive is on and the results are most gratifying. The committee is working most faithfully and every effort is being made to secure Springfield's allotment of \$4000. No one will be intentionally overlooked. Business and professional men, farmers and laborer—every body in fact, will be expected to do their bit.

If we are to send an army to Europe we must accept the responsibilities which go with war fare. It is not enough to cloth and feed the boys in blue. They must be taken care of when they are wounded and it takes money to purchase medical supplies and maintain physicians and nurses in the field. In this war, as in all other wars, the responsibilities of raising the funds rests with the Red Cross, an organization which knows no flag but the flag of humanity and which must bear the brunt of the work of caring for the sick and wounded who are brought back from the trenches.

Neither Springfield nor the tributary country are going to turn a deaf ear to an appeal of this character. The money will be raised and it will be raised without any serious difficulty. Springfield has never yet failed to respond to the call of patriotism, and it isn't going to hesitate or fail in the present emergency.

### LOCKJAW OR TETANUS

In the early period of the European War, many cases of lock jaw or tetanus developed in the wounded of the allied armies. This very fatal disease is caused by a bacillus which is often found in garden soil, street dust and in the earth in the vicinity of stables. In order to cause tetanus, the germ must lodge in a wound and find suitable conditions for its growth. Injuries in which clothing or foreign matter is forced widely or deeply into the tissues are the most dangerous because the tetanus germ can only flourish in places into which oxygen can not penetrate, just as toadstools grow best when sheltered from the sun.

As soon as the stress of war conditions permitted, all badly wounded men were immediately given injections of the serum against tetanus as a routine procedure to prevent this dreaded disease. The use of the antitoxin caused a prompt reduction in the number of cases and the control of tetanus in the armies can be justly cited as one of the ways in which science is helping valor to win the war.

This subject is of especial interest at the present season because Fourth of July injuries especially from blank cartridges are apt to be followed by lock-jaw if they are not promptly and properly treated. The general adoption of the "Sane Fourth" has done much to reduce the number of these accidents and suitable medical attention has prevented the development of tetanus in almost every instance.

In view of the serious results which may occur, it seems wise to again warn all parents that wounds from toy pistols, firecrackers, and firearms are always dangerous and all persons hurt in this way, even though the injury appear trivial, should be taken at once to a competent physician for treatment, especially to ascertain if the serum should be injected.

### W. O. W. Will Give Picnic

Next Tuesday evening, June 26th the W. O. W. will give a picnic to the Woodmen and families and to the Women of Woodcraft and families. All visiting Woodmen are especially invited. Everyone is requested to bring a full basket of good eats. Lemonade will be served by the committee. Harry Bird, John Edwards, John Arnett, committee.

### IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR LANE COUNTY

F. W. Prentice, Plaintiff,  
vs.  
Israel F. Clifford, Alfred Clifford, Helen Scott, Ella Scott, Harold Mitchell, Charles C. Clifford, Ellen Clifford, Alfred C. Clifford, and Ellen Clifford as Guardian of said Alfred C. Clifford, Defendants.

To the Above Named Defendants: IN THE NAME OF THE STATE OF OREGON, you and each of you are hereby summoned to answer the complaint of the plaintiff filed against you in the above entitled cause and court within six weeks from the first publication of this summons and if you fail so to answer, plaintiff will take judgment against you for the relief demanded in the complaint, viz: that the sum of \$200, expended by plaintiff and one Allen in perfecting the title of land sold to them and their assigns by Samuel Clifford, with interest thereon from Jan. 1, 1914, be declared a lien on the following tract: Begin at a point 113 feet and 4 inches east and 6 feet south of the intersection of the east line of Mill street and the north line of 10th Avenue East, in the city of Eugene, Oregon, and run thence north 73 feet, thence east 66.66 feet, thence south 73 feet, thence west 66.66 feet to the place of beginning, and that said land be sold according to law and the practice of this court to satisfy such lien, the costs of this suit and of such sale, and for such other relief as may be just. This summons is served upon you by publication by virtue of an order made by Hon. G. F. Skipworth, Circuit Judge, June 14, 1917, directing that this summons be served by publishing the same once in each week for six successive weeks in the Springfield News, and requiring you to appear and answer the complaint in said cause within six weeks from the first publication thereof. This summons is so first published June 21, 1917.

S. D. ALLEN,  
Attorney for Plaintiff.

### POSTURE OF WOMEN.

Upon It in Great Measure Depends Good or Bad Health.

Miss Jessie B. Merrick, director of physical education for women in the University of Washington, insists that every woman's home or office be a laboratory of health. She points out that there was a time when woman's household duties were so varied that all her muscles were brought into play. Work has become so highly specialized, however, and woman has taken her place so actively in the business world with man that she is deprived of the opportunity to live a rational life in which she would exercise every part of the body in accordance with its natural functions.

Good posture is to be thought about. It depends upon the maintenance of natural conditions of life. Some health specialists attribute all abnormalities of health to bad posture. Depressed mental condition, ill fitting clothing and poorly adapted furniture all contribute to a slouchy sitting or standing posture.

Bad posture is blamed for such diseases as sciatica and lumbago.

Good posture represents initiative, courage, responsibility, self control and self direction.

A strong nervous system is to be gained by physical activity, in games, dances and exercises involving rhythm.

### HE INVENTS WORDS.

This Man Finds Terms to Fit Emergencies For the Dictionaries.

There are in the world many unusual and unique occupations, but perhaps the strangest of all which pays a good income is that of a New York newspaper man who earns, in addition to his regular salary from the paper, rather regular amounts from the publishers of dictionaries, encyclopedias and other such volumes. His occupation is the inventing of new words.

The casual observer would be inclined to remark that the English language already possesses enough words for all uses without the invention of any new ones, and probably his statement would be fact. Nevertheless it is true that this man is paid substantial sums for inventing new words to fit special phrases, situations, occupations and occurrences, and that the publishers of dictionaries will incorporate into them any new word based on substantial derivatives for the existence of which a plausible reason can be made.

The progress of modern business, and especially the discoveries that have been made in the fields of electricity and medicine in the last decade, have been responsible for the incorporation into the language of many new words. —St. Louis Globe-Democrat.

### Preserve the Wild Flowers.

An earnest appeal has been made by the Kansas City Star for the preservation of one of the most beautiful of wild flowers, the columbine, particularly along tourist routes. This appeal will find sympathetic support everywhere throughout the states in which the columbine is a natural annual, but it should be broadened to include all wild flowering plants that are needlessly and often wantonly pulled up by the roots. The conservation of wild flowers is a patriotic duty.—Christian Science Monthly.

### Have an Old Fashioned Garden.

If you wish to grow flowers in quantities for house decoration or other purposes grow them in a border three or four feet wide along a back fence. This is the place for larkspurs, hollyhocks, dahlias, columbines, phlox, shasta daisies, gladioli, etc. Call this an old fashioned garden if you will, all the same everybody likes it.

Pomegranates. The pomegranate was early cultivated in Egypt; hence the complaint of the Israelites in the wilderness of Zin (Numbers xx, 5), this "is no place of figs, or of vines, or of pomegranates."

Geometrical. "Don't know her? Why, she lives in the same square with you."  
"Yes, but she's not in the same circle."—Cleveland Leader.

Natural History. A naturalist asserts that bees have advance guards. Possibly. But the rear guard is more feared.—Louisville Courier-Journal.

Take a good book slowly. You see much finer country in a mover's wagon than you do from a car window.
