THE GOOD JUDGE JOINS THE ARMY.

COLONEL, PUT ME IN THE RANKS OR ANY OTHER OLD PLACE, BUT SEE THAT WE HAVE PLENTY OF THE LITTLE CHIEF THAT SATISFIES!

WE HAVE A FOUR MONTHS SUPPLY OF W-B CUT TOBACCO.

THEN, GOING TO STAY WITH THIS REGIMENT.

WHEN men are drawn together in the army, you find out a lot about their likes and dislikes. It's always been a great place for the spread of W-B CUT popularity. They show each other why you shouldn't take more than a little chew of W-B CUT. Every shed is chock full of saps; a big chew is too rich. They take to W-B CUT, strong; nothing is too good for our soldiers.

A FABLE FOR EVERYBODY
 By **GEORGE ADE**
 Of the Vigilantes.
 "We must convince people who shrink from contact with Cold Porcelain that a Bath isn't a bad idea, whether you are going to get married or not."

A Marriage Broker was trying to promote an Alliance so as to get his piece of the Dowry. He said to the young man: "She's a nice girl. Go home, take a Bath, put on your Good Clothes, go and talk to her. I think it will be all right." The Young Man was skeptical. "The trouble is," he said, "I might go home and take a Bath, and then she wouldn't have me after all."

"We must convince people who shrink from contact with Cold Porcelain that a Bath isn't a bad idea, whether you are going to get married, or not!"

"We must drive home to a lot of Nice People the important fact that whether you are going to get married or not, you must take a Bath."

"We can teach them to obey orders." The entry of the United States means Real War or merely the opening of a new Commissary, we need Universal Military Training. This country is first in the production of a good many things, but our largest and surest crop—the one that never fails—is the Crop of half baked liabilities, between the ages of fifteen and twenty-five.

Whether you find him at the Corner of Forty-second and Broadway, or on a Depot Platform in Indiana, or steering an auto through the cornfields of Kansas, the delightful specimen of Young America who has turned eighteen and who knows more than his Parents, is the most obtrusive item in the Picture. Young men are fresh the world over, but the American cub is fresher than Green Palut, than which nothing could be fresher.

Sometimes it would seem that all the women who didn't raise their Boys to be Soldiers raised them to be Vandeville Performers. Nowhere else in the world do Young People accept so lightly, and in such a take it for granted manner the sacrifices made in their behalf.

Nowhere else is the directing advice of Elderly People received with such good natured contempt. They are too old to spank, but we can line them up and try to convince them that this World is not all Ragtime and Cigarettes.

We can teach them to respect the Flag, obey orders and get at least a glimmering conception of the Eternal Law of Compensation—that he who takes must also give.

We are now at war with Germany. We have not struck back, but we have taken Blows in the Face, and either we must retaliate or cease to claim relationship with the Human Race.

Up to this time the Germans have given all they can to convince Americans that we must fight for our Rights or go out of business. They have violated our Hospitality by Infamous

Blair Brothers of Jasper passed through this place Monday with about 200 head of cattle which they were taking to the Oakridge range for the summer.

"We have taken blows in the face." Plots. They have murdered our People. They have struck down our Flag. Every time we begin to cool down from one insult they landed us Another, just as a Slight Token of Contempt. The Germans have been the best Allies of Patriotic Americans.

It is pretty hard to convince these Good People that the War is a Final Struggle between Despotism and Democracy and that if the Allies lose every corner in the remotest corner of the United States must get ready to wear a Collar made in Germany.

Many of them seem to believe that now as we enter the War we are taking an idle Quarrel over the Loss of Property. They want to refer the whole thing to a Claim Agent. Let us show them if we can that we are fighting to defend our very existence as a free government. We are fighting to win back our Self Respect, without which we are a Paper Nation.

 Makes Clubbing Arrangement With
The Oregon Farmer
 Offers Unusual Opportunity to Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state, and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with THE OREGON FARMER whereby any farmer or fruitgrower, who is one of our regular subscribers and who is not now a subscriber to THE OREGON FARMER, will be entitled to receive THE OREGON FARMER in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity, but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.
