WE DID WHAT WE COULD

When Springfield was assigned the task of raising \$4000 for the Red Cross we heard many expressions that this sum was away out of proportion to what was assigned many other communities, but notwithstanding this fact our citizens tackled the task in the spirit of patriotism and raised about \$3,600. This is a splendid showing and Prof. Kirk, chairman of the general committee and all persons who so ably assisted in the work are to be commended for their gallant efforts in behalf of this worthy cause.

The Red Cross is a most important auxiliary to the great plan in the conquest this nation has undertaken to establish human freedom and worldwide liberty of mankind.

The whole world is looking to the United States to solve the problem of world peace and this is the only nation that can do it. While it may seem like a herculean task this nation is more nearly equal to the emergency than any other and the future history will shine resplendent with the accomplishment of America in that direction. To win world peace every possible agency in this country must be brought into requisition and no factor will be more efficient in that direction than the work of the Red Cross. The Red Cross is the conserving factor in the fighting forces of the nation. The old world has long since learned this to be a fact hence the millions in France, England, Russia, Japan and Germany that have belonged to the organization both in times of peace and war. Japan has a million and a half members in the organization while here in the United States with its 100,000,000 population our membership here to fore, has been less than 300,000.

What we need to learn as a people right now is that we are facing the days of individual sacrifice in order to carry forward the principles of good government and human liberty. What is life without liberty—the broad liberty that grants equal rights to all and not to the few? The hour has come when we realize as never before that we are our brother's keeper; that our dollars our sympathy, our support, aid and comfort, must go out to others. We are getting our needed lesson in the great world-betterment movement and the uplift of nations. However we may deprecate the horrors of war the horrors of war in all of their terrifying and disheartening ramifications are with us and which nothing short of an apparently endless flow of human blood, appalling destruction of property and spread of desolation will satiate, yet, out of this awful chaos comesthe encouraging gleam of the great and glorious future in which the United States gives promise of being a bright and scintillating star.

The United States is fighting not alone for the future of the world, but for its individual fu-

ture—for the generations that are to follow. The blood of a generation may be required to accomplish a thousand years of world peace and universal progress yet in the light of history this may not be too great a sacrifice if, perchance future generations may carry the banner of civilization to still greater heights in world accomplishments. Time sacrifices one generation for another. Few of us live beyond the allotted time. As we reach the sundown of life our chief ambition is for those who follow us and take up the duties and responsibilities where we leave off. In this great war that is the way we should look at the sacrifices we are called upon to make in the behalf of the Red Cross fund. It is our sacrifice for the generations to follow and, more particularly for our own flesh and blood that the way may be paved for their greater freedom and liberty and for their greater progress in the art of civilization.

FOR SALE OR TRADE—Small fruit ranch within sight of Creswell. Will consider trade on Springfield residence property. Address, C 31, Springfield News.

THE GOOD JUDGE TELLS WHICH IS BETTER, AND WHY IT IS.

JUDGE, HE PAID 10 CENTS FOR HIS TOBACCO. I PAID 10 CENTS FOR MINE. WHICH DO YOU IMAGINE IS BETTER?

YOURS, OF COURSE! W-B CUT TOBACCO COMES IN SMALL PACKAGES. WHILE CHEAP ORDINARY TOBACCO COMES IN BIG BAGS.

A good many people are looking into what makes men change over to W-B CUT and stick to it so. Tobacco is tobacco, but all chewing, isn't all tobacco. You don't have gummy excess sweetening to chew out of W-B CUT, before you get down to satisfaction. The shreds are tobacco, through and through—and the richest, sappiest tobacco that grows. You notice the difference at once—W-B CUT goes twice as far as ordinary plug.

SIGNAL
June 26.—About 40 people met at the home of Frank Winfrey last evening to bid one of his boys good-by as he left the next morning to join the U. S. Navy.

Nine carloads of people from Eugene and Thurston spent Sunday at the home of C. A. Miller. The afternoon was much enjoyed telling yarns. About 80 people in all were present. Refreshments of ice cream and cake were served late in the afternoon.

We are all very sorry to lose Arthur Edwards from our community.

Robert Edwards has moved to Fall Creek.
H. Miller is loading several carloads of wood.
Roe Conn is recovering from the badly bruised knee which he received several weeks ago.

GET REGISTERED CATTLE
Farmers Band Together to Secure Car of Shorthorns
A carload of pure-bred registered Shorthorn cattle will be shipped to this county from Weeboro, Mo., by N. S. Robb, Lane county agricultural agent, in the near future, if arrangements to that effect are completed. A number of farmers met in the office of the agent in Eugene yesterday afternoon and each signed up for a number of the cattle. If the deal

goes through there will be 20 head of heifers and three young bulls in the shipment. The local farmers will pay from \$150 to \$175 a head for the animals.

Mr. Robb is now in the Middle West on his vacation and has promised to select the cattle for shipment here if the farmers decide to send for the animals.

If this shipment is made it will be the largest of pure-bred cattle ever brought into the county at one time.

Those who have so far signed up for these cattle are H. A. Stoneberg, and H. J. Hansen, of Coburg; H. S. Cox, of Eugene; F. W. Treanor, of Creswell, and E. L. Kiemer, of Alvedor.

TRAIN HITS AUTOMOBILE
Three Ladies Escape Death by Jumping from Car

A motor car driven by Dr. Anna M. Smith was wrecked yesterday morning at Judkins Point while Dr. Smith and Miss Virginia and Miss Sue Dorris were driving to Eugene. The car went dead while it was squarely on the Southern Pacific track. The train which was south bound came around the curve and the young ladies jumped from the car just in time to escape death. The car was thrown some distance and one wheel was broken and the running board was smashed. Never before had the engine failed but the ladies think that enough power was not applied owing to the presence of other motor cars just in front of them.
