HOOVER RULES THE WORLD AS FAR AS FOOD IS CONCERNED

Agreement Between Warring Nations Gives Him Notable Power, With More to Come

PRODUCTS APPORTIONED

International Commissioners Will Dictate Even to Neutrals; Everyone on Rations

The warring world—and a large portion of the neutral nations—are on rations today. Thus far the rationing is voluntary

on the part of the war powers, but if the steps already taken to conserve food do not suffice, then compulsory rationing will be enforced. Among neutral nations stern necessity forced by the American embargo, has compelled strict rationing.

With Lord Rhonda, British food controller announcing his intention to force conservation—by compulsion if needed—Herbert Hoover becomes even more than before the food dictator of the world.

Foods to Be Apportioned

One of his first steps in proper apportionment of food is the establishment of an international sugar commission, which will be followed by commissions for other commodities so that the allies shall not bid against each other in world markets and by their very bidding force up prices.

To date Hoover has eliminated some of the middle processes which absorbed profits, has established control over wheat, has created a sugar commission, has informed the American people they must ration themselves.

Hoover and other food controllers

are certain that food will win the war. Germany is not starving, but her prospects of malnutrition grow constantly.

What Has Been Done

To conserve foodstuffs for the world, Hoover already has taken the following steps:

.. Licensed millers, sugar refiners and packers; planned regulation of baking industry, canneries and milk distribution; by voluntary agreement fixed retail price of sugar at 7 1/4 cents a pound; reduced price of flour; signed several million in anti-waste campaign cities, conclusively proving effectiveness of campaign; and aided in greatest canning, preserving and food drying activity in country's history.

Hoover announces he intends to take control of 10 or 12 leading staple commodities. His worldwide power is illustrated by appeals of European neutrals directly to him to release enough foodstuffs to prevent their starvation.

MAKES CLUBBING ARRANGEMENT WITH

THE OREGON FARMER

Offers Unusual Opportunity To Its Readers

AMONG our large circle of readers there are a great many who are interested directly or indirectly in fruit growing, dairying and other branches of farming. All of these naturally wish to keep in close touch with agricultural activities throughout the state; and to know about any fight which is being waged for the measures Oregon farmers want and against all sorts of schemes that are detrimental to the people and agricultural interests of this state.

We have, therefore, made a special clubbing arrangement with *THE OREGON FARMER* whereby any farmer or fruit-grower, who is one of our regular subscribers and who is not now a subscriber of *THE OREGON FARMER*, will be entitled to receive *THE OREGON FARMER* in combination with this paper at the same rate as for this paper alone.

This offer applies to all those who renew or extend their subscriptions as well as to all new subscribers. If you are interested directly or indirectly in Oregon agriculture, do not miss this unusual opportunity but send your order in now.

THE OREGON FARMER is the one farm paper which is devoting itself exclusively to the farming activities and interests of Oregon. It has a big organization gathering the news of importance to farmers, dairymen, fruitgrowers, stockraisers and poultrymen; and it has the backbone to attack wrongful methods and combinations and bad legislation, and support honest leaders and beneficial measures. We are confident that our readers will congratulate us on our being able to make this splendid and attractive clubbing offer.
