TUBERCULOSIS SUNDAY

The culmination of the week's campaign will be the celebration of Tuberculosis Sunday, with special emphasis on the part of churches and religious bodies in public health work. Tuberculosis Sunday is an undenominational and non-sectarian movement. It has in past years, and will this year, reach Jew and Gentile, Protestant and Catholic, and all possible religious groups within these organizations. It has received the endorsement of leading church dignitaries of almost every creed and denomination. The elasticity of the observance of this day should also be emphasized. For those worshipping on Saturday, December 8th, this day may be set aside. It is not required that special sermons be preached on the subject of tuberculosis, though this may often be desirable. A brief talk in connection with some service, a discussion before a young people's society or some other special group, an oral or a printed announcement is sufficient to answer the requirements.

COMMUNITY DEVELOPMENT

How many farm folks and small town residents fully appreciate what a spirit of community cooperation may be made to mean to them? Not alone can this be weighed in the scales of sentiment and civic pride. There is also something of a dollars and cents value in boosting one's home town if we study the matter from the mercenary side.

In a community that is "financially sick" it is a very uncommon thing to find the individual prospers. This is because the individuals who make up a community shape the trend of a community up or down.

All of you have heard people living in or near a smaller town say: Our little town can't grow it is too near the city. So, with this belief planted in the mind one goes on spending a lot of the money that is produced locally in the stores of nearby larger towns and cities.

You go on failing to patronize your home town merchants. They can't make a "go of it" and as a trading center the home town falls lower and lower in the scale.

Local merchants become afraid to stock up with high grade merchandise after a time and it isn't long before your

home town stores carry only the lower grades of goods.

Don't pay your local dealer two prices for a good article; but do give him a chance to buy in sufficient quantities so that he can supply you at the same price as the same article can be bought for elsewhere. Encourage him with your trade so that he is not afraid to carry well-known brands of goods with a standardized quality. A standard article represents the same value no matter where you buy it.

Once the merchant of your home town knows the trade of their community is back of them they will not hesitate to carry standard products of known quality for you to select from. You have the opportunity to help make your community improve. For, with better stores, comes a better town and a good town means enhanced values for any property you own in it or near it.

This article on Community Development will appear in The Oregon Farmer, issue of Dec. 6.

SOME PEOPLE CAN'T SAY "NO" TO THE GLIB STRANGER WHO HYPNOTIZES THEM INTO INVESTING IN SOMETHING THAT EXISTS ONLY ON A PIECE OF PAPER. SOME PEOPLE "BITE" AT THE "GET-RICH-QUICK" SCHEME BECAUSE THEY BELIEVE A STRANGER INSTEAD OF THEIR OWN BANKER. LISTEN, IF THAT GET-RICH-QUICK SCHEME IS SO GOOD, WHY DOES A SMOOTH STRANGER HAVE TO PEDdle IT TO YOU?
