## SOME FACTS ABOUT WAR INSURANCE

Any man or woman of any age in the active military or naval service of the United States can obtain Government insurance. It has been ruled that members of Officers' Training Camps are under the act and can obtain insurance. The cost for each thousand dollars of insurance is from sixty-five cents a month to persons at the age of twenty-one to one dollar and twenty cents a month to those of the age of fifty-one.

The beneficiaries are limited to wife, husband, child, grandchild, brother or sister, stepbrother or stepsister, adopted brother or adopted sister of the insured, as well as parent, grandparent, or stepparent either of the insured or of his or her consort.

The insurance is not compulsory, but the cost is low and the protection great, and not only are all persons eligible afforded every opportunity to obtain this insurance without trouble or extra expense but they are special ly urged to do so.

Gen. Pershing and thousands of other officers and tens of thousands of soldiers have already taken out insurance. Up to date policies of insurance have been issued aggregating \$1,032,938,000.

## THE NEED OF ECONOMY AND SAVING

When we put a million and a half soldiers in the field, we with draw those men from productive enterprises. They do not while they are actually in training or in service produce anything. They do, on the other hand, consume much. There is nothing more expensive on earth than to support and maintain a great army in the field, especially if it is on the fighting line. The attrition of supplies is great when we have a fighting army in the field.

America is the one great remaining storehouse in the world of supplies and credit. We must maintain and make effective as possible our own soldiers and the soldiers of those nations who are fighting for us. We must therefore draw as little as possible upon our common store of supplies and money. The more we lessen our domestic demand, the more we can contribute to the support and effectiveness of our allied armies.

Economy is now a national duty, such a duty upon the people at home as fighting upon those Americans who are brave

ly offering their lives for the honor of America and the preservation of liberty and justice.

## PLANS ARE MADE FOR CARE OF INJURED

The receiving hospital for United States soldiers brought back from Europe, to be established at Staten Island, N. Y., will have a capacity of 2,500 beds. This marks the beginning of a comprehensive plan for the care of soldiers who are disabled in the line of duty. It will be used only for distribution.

From the Staten Island institution men will be transferred to general or special treatment hospitals, sites for which are now being selected throughout the country. Whenever possible injured soldiers will be sent to places near their own homes. They will be fitted for trades to which they are adapted, and at the time of discharge the Government will assist them in returning to their proper places in industry.

## NEW PUBLICATION SHOWS AIMS OF GERMANS

"By right of war the right of strange races to migrate into Germanic settlements will be taken away. By right of war the non-Germanic population in America and Great Australia must be settled in Africa. By right of war we can send back the useless South American romance peoples and the half-breeds to north Africa."—Quotation from the German in the new 170-page publication issued by the Committee on Public Information, "Conquest and Kultur."

Copies may be secured free of charge by application to the Committee on Public Information, 10 Jackson Place, Washington, D. C.

**How to Prevent Croup.**  
In a child that is subject to attacks of croup, the first indication of the disease is hoarseness. Give Chamberlain's Cough Remedy as soon as the child becomes hoarse and the attack may be warded off and all danger and anxiety avoided.

Chamberlain's Cough Remedy.  
This is not only one of the best and most efficient medicines for coughs, colds and croup, but is also pleasant and safe to take, which is important when medicine must be given to children. Many mothers have given it their unqualified endorsement.

## YOUR CHILDREN

Should not be sent to school until their eyes are optically correct.

It is a great handicap for scholars to try to study when their vision is defective.

From my 27 years' experience in eye examinations, eye testing and the fitting and grinding of correct glasses, I am in a position to advise as to the very best course to take.

You can consult me with perfect confidence.
