HOOVER SAYS

Save the waste, control the taste;
Eat corn bread and rye;
Meatless days, wheatless days,
Eat less cream and pie—
For victory's sake cut out the cake
Save food and win—or die
Keep the fighters fit—this is your bit
That is the reason why.

THE WAR FINANCE CORPORATION

The bill recently introduced in Congress for the creation of the "War Finance Corporation" with a capital stock of five hundred million dollars, all of which is to be subscribed by the United States, should be regarded, says Secretary of the Treasury McAdoo, primarily as a measure to enable the banks, both national and State banks and trust companies, to continue to furnish essential credits for industries and enterprises necessary or contributory to the prosecution of the war.

The Government has made and is making through the Liberty Loans such large demands upon the lendable capital of the country that the banks often have been prevented from giving needed help to private enterprises, some of which are performing vital service in connection with the war.

The War Finance Corporation is designed as a war measure to give relief from this condition during the period of the war and Secretary McAdoo asserts that the mere existence of the corporation would of itself do so much to maintain confidence that its actual aid would be necessary only in relatively few cases.

This is no hasty conceived legislation. Secretary McAdoo has taken the most expert advice available and the methods adopted in the other countries at war have been thoroughly studied. The proposed law embodies the basic principles of similar laws which have been tried in Europe. Its purpose is to attain the most efficient use of our country's tremendous financial resources for the Government and for private enterprises, which are all necessary to the welfare of the country and our success in this war.

WHY FARMERS SHOULD RAISE MORE CHICKENS

More chickens and more eggs will release more meat for our Armies and the Allies. Poultry can be increased more rapidly and more economically than any of the meat animals. Chickens will live, grow and prosper on waste that would never otherwise be used, and will eat the insect bugs, particularly orchard pests, before the latter have had time to do great harm. Chickens require a minimum of attention. Most of it can be given by women and children. No heavy labor is required. Chickens will help win the war. Raise all you can.

BUSINESS VERSUS POLITICS

Wherever an industry or business

succeeds, some one must pick the manager who makes it a success.

Usually in the free operation of natural and economic law the right man finds himself for the job.

Whether industries, be the railroads or shipyards, are under socialism or private capital, success is in the manager.

This man is always picked because of his experience fitting him to handle the job, while in politics he is picked for other reasons.

In politics his political opinions must suit the picker, or the one who picks the man must be his friend and admirer.

Politics often picks second-rate men to handle the most important work of the nation, as experience proves.

Business, a corporation, or selfish capitalists would pick a practical man for the work he was to manage.

Politics picks a man with his head full of economic theories, while business would demand a man who knew his job.—The Manufacturer.

GEN. PERSHING PRAISES FIGHTING MEN

In a recent communication to Secretary of War Baker, the commander of the American Expeditionary Forces said:

"There has never been a similar body of men to lead as clean lives as our American soldiers in France. They have entered this war with the highest devotion to duty and with no other idea than to perform these duties in most efficient manner possible. They fully realize their obligation to their own people, their friends, and the country. A rigid program of instruction is carried out daily with traditional American enthusiasm. Engaged in healthy, interesting exercises in the open air, with simple diets, officers and men, like trained athletes, are ready for their tasks. Forbidden the use of strong drink and protected by stringent regulations against sexual evils, and supported by their own moral courage, their good behavior is the subject of most favorable comments, especially by our allies. American mothers may rest assured that their sons are a credit to them and to the Nation, and they may well look forward to the proud day when on the battle field these splendid men will shed a new luster on American manhood."

CORN WILL WIN DEMOCRACY'S WAR

America's Greatest Cereal Crop Is Now Moving to Market.

MAINSTAY IN NATION'S CRISIS.

Surplus Wheat of the United States Has Been Sent to Famine Threatened Europe.

America's great corn crop, exceeding 3,000,000,000 bushels, will save the world's food situation, officials of the United States food administration believe.

Corn is the nation's best food cereal, housewives are beginning to realize. It contains all the elements needed to keep the body in a state of health and when used according to the scores of tried recipes, especially when combined with an added portion of oil or fat, will sustain life indefinitely. Indian warriors in colonial days lived on parched corn alone for many days at a time, and at Valley Forge parched corn was at times the sole ration of the Continental soldiers.

Owing to transportation difficulties caused by the war the corn crop moved more slowly to market this year than ever before. Now, however, the cereal is reaching the millers and consumers. In the meantime the nation's surplus wheat has been sent to Europe.

Today there are approximately 30 bushels of corn for every American. This quantity is greater by five bushels than in former years.

Corn has become the nation's mainstay in the crisis of war.

Just as this cereal saved the first American colonists from famine on many occasions, just as it served as a staple food during the War of the Revolution and during the Civil War, King Corn has again come to the front in the nation's battle with autocracy.

Corn meal is finding greatly increased use in the making of ordinary white bread. Hundreds of housewives and many of the larger bakers are mixing 20 per cent, corn meal with wheat flour to make leavened bread. This kind of a mixture is worked and baked in the same recipes and with the same methods that apply to straight wheat bread.

Corn bread—using corn meal entirely—is gaining a greater popularity than ever before. Housewives are coming to realize that every pound of wheat saved in America means a pound of wheat released for shipment to the nations with which America is associated in the war.

There are a score of corn products that today possess unusual importance for Americans. Corn syrup for sweetening corn cakes and buckwheat cakes and for use in the kitchen instead of granulated sugar is one of the leading products made from corn.

Corn oil, excellent for frying and for every other purpose filled by salad oils, is appearing on the market in large quantities. It comes from the germ of the corn.

MADE-IN-GERMANY LIES CIRCULATED IN CANADA

Canada is also having trouble with Made-in-Germany lies calculated to hinder Canadian food conservation according to an official statement received from the Canadian food controller by the United States food administration.

The stories bothering Canada are of the same general character as those the United States food administrator recently denounced in this country, such as the ridiculous salt and blueing famine fakes and the report that the government would seize housewives' stocks of home canned goods.

The Canadian food controller estimates that when the people listen to and pass on such stories, each one has the power of destruction that lies in a battalion of soldiers.

"Stories without even a vestige of foundation have been scattered broadcast," said the Canadian statement. "Nor have they come to life casually. They have started simultaneously in different parts of the country and in each instance have been calculated to arouse public indignation.

"They are insidious, subtle, persistent. Bit by bit they dissipate public trust, the great essential in the work of food control.

"It lies with every individual to forbear from criticism; to refrain from passing on the vagrant and harmful story, and thus the more effectively to co-operate in work which is going to mean more than the majority of people yet realize."

THE UNITED STATES FOOD ADMINISTRATION SAYS:

There is no royal road to food conservation. We can only accomplish this by the voluntary action of our whole people, each element in proportion to its means. It is a matter of equality of burden; a matter of minute saving and substitution at every point in the 20,000,000 kitchens, on the 20,000,000 dinner tables, and in the 2,000,000 manufacturing, wholesale and retail establishments of the country.

The Careful man knows that his papers and valuables are safe when he places them in our Safety Deposit Vaults. Are yours safe?

DON'T YOU READ ALMOST DAILY ABOUT BURGLARS BREAKING INTO SOME HOME, COMMITTING MURDER AND GETTING AWAY WITH A SACK FULL OF VALUABLES. THIS CANNOT HAPPEN TO YOU IF YOUR PAPERS AND VALUABLES ARE IN ONE OF OUR SAFETY DEPOSIT BOXES. BURGLARS HAVE A WAY OF "SPOTTING" THE HOUSE WHERE VALUABLES ARE KEPT AND THAT IS THE HOUSE THEY ROB.

WE CHARGE ONLY \$2.00 FOR A SAFETY DEPOSIT BOX FOR ONE YEAR. BE A CAREFUL MAN AND RENT ONE.
