

OVER-SEAS FORCES DO MUCH WORK

American Engineers Handle Forty Million Dollars Worth of Machinery in France

(By Walter R. Dinn)
Washington, D. C., March 30.—Secretary of War, Baker, has just reviewed with commendation the great work that has been done by the United States Engineering Army at the entrance port in France for our expeditionary forces. In the last six months these troops have transformed what was then an insignificant shipping point with facilities for only half a dozen vessels into a harbor that rivals the greatest American port.

Forty millions of dollars worth of machinery and materials were placed in the hands of the American engineers. They dredged the shallow channel and made a deep waterway. The dredgings filled in the marshes. These were covered with miles of piers and warehouses. Now sixty steamers can load and discharge their cargoes simultaneously. The eastern end of General Pershing's bridge of ships is built.

The largest railroad yard in all France has made the war zone tributary to this port. Miles of switches and hundreds of train crews are busy handling the food and supplies for the boys at the front. Shops and roundhouses are ready to keep the rolling stock in good repair.

Many battalions of engineers were required to build this distributing center in so short a time. Carpenters, bridge builders, pile drivers, dredgers, dock helpers, structural steel workers, riggers, surveyors, machinists, concrete workers, railroad operators, trackmen, cooks, and general utility men all helped to complete this military task.

This new harbor was planned and the improvements were all made by engineering soldiers. The engineers are the pioneers of the army. They make the way possible for the advance of the infantry and artillery. They are the skilled workmen of the army. The First Replacement Regiment of Engineers, stationed at Washington Barracks, D. C., trains men for the different organizations of the United States Engineers.

The personnel of units in the engineering army is similar to that of an industrial organization. Each man in the army supplies his technical knowledge to solving military problems. A soldier can follow his chosen profession in the army as well as he can in the industrial world.

Will Dry Potatoes.

A large quantity of potatoes will be evaporated at the plant of the Eugene Fruit Growers' Association if the experiments now being conducted there are successful. J. O. Holt, manager of the association, says there is a big market for this product and he may be able to use the surplus crop around Eugene and Springfield in this way. The government is a large buyer of dried potatoes and as the local association sells great quantities of other products to the government for the army and navy, the manager believes he will be able to dispose of all the potatoes the plant is able to dry.

Will Work in Portland

Denver Young who has been employed for the past year in the grocery department of Cox's store left Tuesday for Portland where he will be employed.

EXECUTOR'S SALE.

Notice is hereby given that by virtue of an order of the County Court of Lane County, Oregon, duly made and entered the 19th day of March, 1918, authorizing the undersigned, as executor of the estate of Nancy Bahr, deceased, to sell the real estate belonging to said estate, at private sale, for cash if possible, and for credit upon proper security if it appears that said sale cannot be made for cash:

Now, therefore, I will on and after the 27th day of April, 1918, at the office of Young & Ray, attorneys for said estate, in the Court House, Eugene, Oregon, offer for sale and sell to the highest bidder for cash, or for credit with proper security, if it appears that said sale cannot be made for cash, the following described real property:

TO THE LIBERTY LOAN WORKERS

State Liberty Loan Headquarters,
Portland, Oregon,
April 6, 1918.

To Ten Thousand Fellow Workers for the Liberty Loan in Oregon:
We set out today upon the accomplishment of a tremendous task—the raising of Oregon's share of that part of the National Defense Fund known as the Third Liberty Loan.

Let us, each one, take to the work in hand with our hearts confident of but one ultimate result—VICTORY.

Let us keep constantly in mind that a prompt and overwhelming subscription to the Third Liberty Loan Bonds is exacted of us. Faltering in this duty is virtually equivalent to an expression of willingness to abandon our boys who are in the trenches, suffering and fighting for us.

Thoroughly sweep the field on the canvass! No man should ask solicitors to come a second time in this effort.

In soliciting subscriptions see that they are enrolled before leaving. A task of this magnitude well begun is half done.

With the Spirit of the First Line Trenches let every man and woman do his or her duty.

"This war," said President Wilson, "must be won, not by the Government, but by the strength of the American people."

In the spirit of "WE-WILL" we will win.

Sincerely yours,
EDWARD COOKINGHAM,
Executive Chairman Oregon State
Central Liberty Loan Committee

Robert E. Smith,
State Manager.

WILL OUR TOWN WIN AN HONOR FLAG?

In order to stimulate individual subscriptions to the Third Liberty Loan, to create community activity and to mobilize, systemize and unify the initiative and energy of citizens and districts in the accomplishment of a national purpose, an honor flag and honor roll system has been adopted by the Treasury Department for the Third Liberty Loan.

- This system is outlined by the Department as follows:
1. A specially designed honor flag, officially adopted as the Third Liberty Loan flag, will be awarded to all communities upon their attainment of their assigned quota.
 2. A small individual poster, containing a reproduction of the honor flag and a blank for the name of the subscriber, will be awarded to each subscriber for display in his home.
 3. A large honor roll, containing at the top a reproduction of the honor flag and the slogan, "Help Our Town Win the Right to Fly This Flag," and below space for the names of all subscribers, will be posted in a conspicuous place in the community.
 4. A large honor flag will be awarded to each state upon the attainment of its quota, the state flag to contain the names of those subordinate groups which have attained their quotas.
 5. A national honor flag will be unfurled at Washington on which will be presented the returns from all the states.

OREGON'S QUOTA

Fifteen Per Cent of the Population Should Subscribe to 3rd Loan.

The fact that Oregon in the First and Second Liberty Loans shows a percentage of only 8.77 per cent of the population subscribing to Liberty Loans, which was less than the average for the United States, and compares unfavorably with other states, makes it necessary for at least 15 per cent of the population to subscribe to the Third Liberty Loan, in order to bring Oregon into the same standing as her sister states.

Oregon's 8.77 per cent of Liberty Loan subscribers is insignificant beside New York's 16.64 per cent, Chicago's 12.22 per cent and Minneapolis' 12.04 per cent.

Canada's recent "Victory Loan" campaign, translated into the United States method of accounting, shows a percentage of 14.3 of the population subscribing for bonds.

Headquarters of the Third Liberty Loan of the Twelfth Federal Reserve District are in receipt of letters, calling attention to the fact that many banks have subscribed to previous loans so liberally that their capacity is somewhat curtailed, and it will be necessary for 15 per cent of the inhabitants of a given community to subscribe to the loan in order to fulfill the desired quota. With the well diffused prosperity on the Pacific Coast, it is felt that this should not be difficult, and from the country districts there should be a higher percentage of subscriptions than from the large, metropolitan centers where there is apt to be a greater proportion of the population living in comparative poverty.

WE MUST OVER SUBSCRIBE

Amount of Loan Estimated for Oregon is the Minimum.

"Rarin' to go" truly describes the frame of mind of the Third Liberty Loan organization of the state on the eve of the big drive.

The loan of three billion which the Secretary of the Treasury has just called for from the Nation is the minimum amount.

"Quotas for different districts will be announced within a few days," says State Chairman Cookingham. The quota of the state is \$18,495,000. Portland will be allotted approximately half the amount or \$9,000,000. While it is apparent that a \$3,000,000,000 loan can be absorbed more readily by the people of the United States than if the loan had been placed at twice that sum, nevertheless I wish particularly to impress upon our small army of volunteer workers and upon every citizen of Oregon that it will be no puny task to raise \$18,000,000."

The Republic's Battle Hymn.

Harry Van Dyke, former American minister to the Netherlands, and now a chaplain in the United States service, has composed an additional stanza for the "Battle Hymn of the Republic." Here it is:

"We have passed the cry of anguish from the victims of the Hun
"And we know our country's peril if the war lords will be done—
"We will fight for world-wide freedom till the victory is won;
"For God is marching on."

Stanfield, Or. (To the Editor.)—I read with a thrill Mr. Van Dyke's additional stanza to "The Battle Hymn of the Republic," and, with the vision of my only son, just passed 20, as he left us a few months ago, eager to go over and do his bit to help avenge the wrongs of Belgium and France, I am constrained to add two more stanzas as my interpretation of America's answer to the cry of anguish.

We have pledged our lives and fortunes
To help freedom's cause advance,
Sent the flower of our young manhood
To the shell-torn fields of France.
We will overcome oppression,
All must have an equal chance.
For God is marching on.

True and loyal hearts are beating.
We are soldiers every one,
And we're Satan's host defeating
When we overthrow the Hun.
Out from Belgium they're retreating
When the victory we've won.
For God is marching on.

After a flight, and maybe a fight, a small chew of Real Gravely braces him up for another trip

Someone Sent Him a pouch of Real GRAVELY Chewing Plug

Tobacco is about the only comfort the soldier has—and no chance to smoke on duty! But a satisfying chew of Real Gravely Plug—he can enjoy that even in a shell hole in No Man's Land.

Give any man a chew of Real Gravely Plug, and he will tell you that's the kind to send. Send the best! Ordinary plug is false economy. It costs less per pound to chew Real Gravely, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravely with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELY
Dealers all around here carry it in 10c pouches. A 3c stamp will put it into his hands in any Training Camp or Hospital of the U. S. A. Even "over there" a 3c stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it.

HEALTH THAT MAKES WEALTH

Nervous Energy Which Enables One to Think New Thoughts and Initiate New Plans Important.

Probably the majority of men do not know what real health means. It means more than the capacity to sit up and eat, to walk, to board a car and to bend over a desk. Real health means more than the real ability to do the same thing day after day. Real health means a degree of stirring, nervous energy that enables one to think new thoughts, conceive new plans and initiate new enterprises. Superabundant nervous energy is back of exceptional mental activity. It is the basis of all those qualities which are most essential in the struggle for success.

It is not sufficient to have health that will enable you to do a commonplace day's work, Hugo Masters writes in Physical Culture. The right kind of health should give you the energy with which to perform far more than a day's work, if necessary, even from a quantitative standpoint. It is commonly the man with an unlimited capacity for work who gets on. He is able to work long hours without tiring. Successful men invariably enjoy the possession of this degree of nervous endurance or working endurance.

But it is not this that is most important. The possession of energy is essential, not so much for the sake of the capacity for long hours of work, but on account of the quality of work which it enables one to perform. Quality of effort is more important than quantity of work and the greatest value of unlimited energy lies in giving one the capacity for concentration, the capacity for an intensity of effort that is beyond the average man.
