

UNITED STATES SENATOR

CHARLES L. McNARY

Because United States Senator Charles L. McNary has made good he should be nominated to succeed himself in the Republican Primary.—May 17th.

From the day he became Senator he has loyally championed the prosecution of the war, and during his term of office has accomplished more for Oregon than any other member in Congress in a like period.

Among his colleagues he is known as "The man on the job" and during the present war crisis Oregon should consider itself fortunate in having an opportunity to return him and not be compelled to send to Washington, a new, untrained man.

Believing that the supreme obligation he owes his country is to help win the war, Senator McNary, instead of returning to his State to conduct a political campaign, is at his post in Washington working for Oregon and aiding in the prosecution of the war.

Always since entering the Senate he has been a friend of our soldiers and sailors and has introduced legislation giving them preferential home stead rights and repeatedly championed their cause when their welfare was in jeopardy.

Championing the cause of the Oregon farmers, Senator McNary procured for them a primary wheat market, saving thereby several million dollars to the wheat growers of the North west.

Realizing the present Food Control Law fails to fix prices for many commodities, Senator McNary has introduced, and is laboring for the passage of a bill, striking at profiteering and fixing prices on the necessities of life.

Senator McNary has procured: Government contracts for the first time in the State's history for Oregon products, such as prunes, dehydrated potatoes and vegetables in large quantities.

Large contracts from the government for army clothing and shipbuilding and lumbering industries.

Favorable action by the senate committee on irrigation on a bill providing for the government marketing of district irrigation bonds, thereby supplying funds for irrigation district projects.

Favorable action from same committee on a bill authorizing the Secretary of the Interior to accept irrigation or district drainage bonds and exchange them with the Secretary of the Treasury for certificates of indebtedness, thereby providing funds for legitimate projects.

Senator McNary is working: For prompt payments of allotments to dependent relatives of our soldiers and sailors.

A comprehensive plan for the utilization of the water power resources of Oregon.

For the construction of a coast military highway at Government expense.

Senator McNary was born on a farm in Oregon; reared in the Baptist church; educated in the public schools worked his way through Stanford University; is a lawyer and farmer and has been a life-long republican. He was formerly a Justice on the Supreme Court and later chairman of the State Republican Central Committee.

Space forbids further enumeration of the vast amount of work Senator McNary has done for Oregon, but anyone will realize from the foregoing the Senator has displayed truly remarkable ability, coupled with extraordinary diligence and energy. His native State can best show its appreciation of his faithful and efficient services by nominating and electing him.

WILL USE WOOD FOR FUEL.

Shortage in Oil Causes Rebuilding of Locomotives on Oregon Lines

Being unable to obtain fuel oil for the operation of its locomotives, the Booth-Kelly Lumber company is remodeling them so that they will burn wood and has let a contract for the cutting of 7000 cords of the fuel. M. J. Dick and J. H. Dick, of Eugene have a contract to cut 1000 cords of the wood, and they left yesterday afternoon for the mountains above Wendling to begin their work.

The fuel wood will be obtained from logs which have been cut, but which were defective for various reasons and unfit for lumber. There are a large number of them on tracts that have been logged over, which otherwise would be wasted.

The wood is cut into two-foot lengths and of a diameter that will fit the fire boxes in the locomotives. The company has a number of locomotives on its extensive system of logging railways above Wendling, and has heretofore been using crude oil for fuel, but owing to the fact that the government needs all the oil possible for war purposes the company is able to obtain but little and will soon be compelled to do without it altogether.

Property Changes Hands.

William I. Cofdelter of Independence completed a deal Monday for the sale of his house and lot on west D street near the high school, to James B. Pumphrey and Charlie Pumphrey of Yoncolia. They will take possession at once. Charlie Michaels, now of Portland but formerly of this city, sold his 15 acre ranch on the McKenzie to a local man. The deals were made through Gore and Rowe.

If he doesn't chew yet, he'll slice it up and mix it with his pipe tobacco to give it flavor and improve his smoke.

You will send your friend more tobacco comfort and satisfaction in one pouch of Real Gravely Plug than in half a dozen plugs of ordinary tobacco.

Give any man a chew of Real Gravely Plug, and he will tell you that's the kind to send. Send the best!

Ordinary plug is false economy. It costs less per week to chew Real Gravely, because a small chew of it lasts a long while.

MY PLEDGE

I, Citizen of the United States, willingly subscribe to the Third Liberty Loan in order that:

My Country may never be ashamed of ME!

I may be a true gentle man—gentle woman:

I may work earnestly at whatever it is my privilege to undertake:

I may honorably accomplish MY part to uphold our Liberty, our Manhood, our Womanhood—the best life offers:

I may EARN my right to National Liberty; that I may honestly defend in ALL ways at all times my heritage of Freedom that it is our privilege to Fight for, Live for, Defend at any sacrifice.

I shall NEVER fail my good friend, MY COUNTRY. That has given me home, education, protection:

My children shall be able to state with pride, "MY father and MY mother are Americans and Patriots!"

I shall ever honestly respect my God-given rights to "Liberty, Life and Pursuit of happiness"; that I may support my Country with my life, my fortune, my sacred honor; that I may give—give Love, Loyalty and Obedience:

I will to "the best of my ability preserve, protect and defend the Constitution of the United States," fully realizing the magnitude of my trust and the value of National UNION for collective and individual happiness, life, liberty, PEACE!

I may live "with malice toward none, with Charity—Love—for all!"

I subscribe to "A Government of the people, by the people and for the people," obedient to the ONE RULER, God; to the LAW of God—for "Liberty is the fulfilling of the Law."

Every dollar that is spent to arm a soldier or a sailor, to feed or clothe one; every dollar that is spent for munitions or cannon, for coal to drive our warships and transport supplies, must come from the Treasury, and the Treasury has no source from which to obtain money except the people of the United States.

BUY LIBERTY BONDS and furnish the means to arm and feed our soldiers and make them victorious.

AMERICAN BLOOD WETS TRENCHES

Have YOU Proved Loyalty By Buying Liberty Bonds

BY JOHN LEISH TAIT

There are some tremendous lessons to be learned from the present status of the world strife.

One of the most momentous of them all is a lesson to America and Americans—a lesson to you and me—a personal lesson which we shall do well to accept in its fullest, personal application. It is the lesson of INDIVIDUAL INTEREST in this war.

The blood of American soldiers is wet upon the trenches, and the base hospitals are ministering to American wounded. The shadow of the Death Angel, "made in Germany," has fallen across your threshold and mine. It is no longer a thing detached and apart from us. We are in it. The blood of our sacrifice looks upon the altar. It is now a personal affair.

We—you and I—must back our boys in the trenches, or forever cease to claim rank and title as Americans. The time has come when there are but two classes in this country—Americans, who are for the war in which our boys are pouring out their blood, and traitors, who are either against the war or indifferent toward it. And indifference is now, if anything, more despicable than antagonism.

There is one thing, at least, that most of us can do to prove our awareness of the situation and our loyalty to those who are fighting OUR battles over there; most of us can subscribe, in some degree, to the Third Liberty Loan.

It is totally beside the issue to point out that these bonds are a good investment. The investment feature is not the thing in question. It may require some sacrifice to convert present holdings into holding of Liberty Loan Bonds. But as far as we can manage it, you and I, if we accept the great lesson of the hour and take our part in the baptism of American blood which is for the cleansing of the nations and the rehabilitation of the world, we must "come across"—and come quickly and with thankfulness that it is given to us to do even so little.

Industry, saving and lending to the Government are national needs and national debts. BUY LIBERTY BONDS.
