

STATE INDUSTRIES SHOW PROSPERITY

Governemnt War Activities Are Helping Many Industries of Oregon.

The following is a brief review of what capital is doing in Oregon for the past week.

Oregon leads the entire United States in the number of wooden steamer hulls for the Emergency Fleet Corporation, the total in the country being 33 vessels, launched in six districts, while 18 of the number are afloat in Oregon waters. That gives the State three more wooden vessels afloat than the five other districts combined.

Toledo to build new reservoir with twice the capacity of old one.

Roseburg—Sub-contract for grading stretch of new Pacific highway along Booth ranch let.

Portland—Troy Laundry & Machinery Co. installs new machinery in Portland Hotel.

Portland—War conditions have necessitated installation of dough mixer as labor-saver at Portland Hotel bakery.

Portland—Pacific Car & Foundry Co. "launches" first fleet of box cars. It has orders for 700 from Union and Southern Pacific systems and 2,000 from the government. Such orders will require millions of feet of lumber and this industry is similar to the shipbuilding industry in its importance

"Real Gravely" You will never be like—any more and the choicest of a little share of Real Gravely.

See That He Never Lacks a pouch of Real GRAVELY Chewing Plug

Your fighting man will go to almost any lengths to get good tobacco. Many a man has paid \$5 for less good tobacco than you will send him in a pouch of Real Gravely Chewing Plug. Only costs you 10 cents.

Give any man a chew of Real Gravely Plug, and he will tell you that's the kind to send. Send the best! Ordinary plug is false economy. It cost less per week to chew Real Gravely, because a small chew of it lasts a long while.

If you smoke a pipe, slice Gravely with your knife and add a little to your smoking tobacco. It will give flavor—improve your smoke.

SEND YOUR FRIEND IN THE U. S. SERVICE A POUCH OF GRAVELY

Dealers all around here carry it in 10c pouches. A 3c stamp will put it into his hands in any Training Camp or Barracks of the U. S. A. Even "over there" a 3c stamp will take it to him. Your dealer will supply envelope and give you official directions how to address it.

"Good Morning"

If you sleep on a RESTGOOD MATTRESS

For the use of the RESTGOOD SANITARY CURLED HAIR MATTRESS means sounder and more restful sleeping and consequently a health producer.

THE RESTGOOD is universally recognized as the one superior hair mattress.

Better because it contains only the highest grade of carefully selected curled hair.

Better, because the greater resilience of the hair used in the RESTGOOD makes it by far the most restful mattress.

Better, because when you buy it you make a life long investment for it will never wear out and will retain its resilience for years. Come in and let us tell you about it.

SEE WHAT CAN BE DONE

I wish to express my appreciation of and to state what the Electronet Blanket has done for me, with the hope that through my recommendation some one who is suffering as I have suffered may be induced to use the same treatment and be relieved of the misery and pain as I have been.

I had suffered from inflammatory rheumatism for a long time, and for eight long months previous to commencing the treatment with the "Electronet" was helpless in bed and unable to move at all, and suffered untold agonies all the time.

I had tried everything that any one would suggest, from oils and liniments to the Serum treatment, and everything else I could get, but all failed to give me any relief, and when Mr. McGowan came and asked me to try the Electronet I felt that it was the last straw and grasped at it.

From the first treatment I experienced relief, and within ten days was practically free from all pain and soreness.

I continued to use the blanket twice a day for some time and would use the dry magnetic bath whenever I felt pain, with the result that I would get relief right away.

I am gaining strength every day, and have even walked short distances with help for some time, and can stand on my feet alone after being assisted to an upright position, which is wonderful, I think, after considering the fact that I had been told that I would never get up, and that I would probably be bedfast for twenty-five years if I lived that long.

I consider the Electronet Blanket was a Godsend to me and can not praise it too highly, and certainly do recommend it to any one suffering from rheumatism or any other disease resulting from poor circulation, or from a poisoned system.

This is only a brief statement of what I think of the Blanket, and will be only too glad to have any one call and see me and see for themselves the benefit I have derived from it.

No recommendation is too strong for it, and money could not buy it from me if I could not get another.

Very sincerely,

MRS. ELLIS KNOUSE, Emmett, Idaho, April 30, 1918.

NURSES TESTIMONY—The above is signed in my presence, and having nursed and taken care of Mrs. Knouse, I can truthfully say that the above are facts and are true in every particular.

Young Men Must Register June 5

Affects All Who Have Reached Age of 21 Years Since Draft Registration.

Wednesday, June 5, has been officially designated as registration day throughout the United States, for all young men who have attained the age of 21 years since draft registration day one year ago.

On Wednesday, June 5, every 21-year-old man in the United States must appear at the registration place designated by his local draft board, and register.

The only exceptions are men already in military or naval service. Special arrangements have been made whereby absentees and those too ill to appear at the registration places may register by mail.

But they must all register. Failure to do so makes the guilty young man liable to imprisonment for one year. And ignorance of the fact that June 5 is registration day will not be accepted as an excuse. The burden of informing themselves as to the place and date of registration is placed on the men themselves.

Registration will be in charge of the local boards in their respective districts. They are required to post immediately a list of the registration places.

These registration places will be open from 7 o'clock the morning of June 5 until 9 o'clock that night. They will be in charge of officials of the local draft boards.

June 5 has been selected as the date for registration day because it is the anniversary of the first draft registration day, when approximately 10,000,000 men between the ages of 21 and 30 years, inclusive, registered for the draft.

This registration day is only for men who have reached the age of 21 years, thus coming within the draft age, since last registration day.

REV. FORD LECTURES HERE

Makes Plea for Success of Present Red Cross Drive.

Sunday was Red Cross Sunday for the churches all over America, to fittingly open this week as the beginning week of the big Red Cross drive. This drive is to raise \$100,000,000 for the care and comfort of our wounded boys "over there," and the Sunday morning services were a fitting beginning for this work.

Rev. T. B. Ford, D. D., of Salem, spoke Sunday morning at the Methodist church, making a gracious plea for this great movement and for its immediate and overwhelming success.

Examinations to Be Held.

State eighth grade examinations will be held in this city the first of June. In other places throughout the county these examinations are being held this week, but they will be held late here, due to the late date set for the closing of the schools. They will close here June 14.

Road to Happiness

Be amiable, cheerful and good natured and you are much more likely to be happy. You will find this difficult, if not impossible, however, when you are constantly troubled with constipation. Take Chamberlain's Tablets and get rid of that and it will be easy. These tablets not only move the bowels, but improve the appetite and strengthen the digestion. adv.
