

For a Peaches and Cream Complexion

A glance at a woman reveals in a way the state of her general health, because her color indicates the condition of the blood. A pallid and muddy complexion, or the presence of blotches and pimples, shows that the blood is impure. If you wish to have an enviable complexion you must attain it from within.

Kalatone

Is an excellent blood purifier. It will soon eliminate all poisons from the blood and give a healthy, ruddy glow to the skin.

PRICE \$1.00.

A single bottle will convince you that its use will work wonders in improving your general health and personal appearance.

Mr. and Mrs. Auto Owner, (Experienced Drivers and Beginners.) Everywhere.

Dear Gas Consumers:

We wish to thank you for the business received from you during the first six months of our business existence in Springfield, and we trust that you will keep on coming, for which we will also thank you and endeavor to merit your kindness.

In patronizing the "Springfield Garage" you benefit its business. If you are a subscriber to the "Springfield News" you are supporting a local need. If you have acquired the habit of buying "War Savings Stamps," you are helping America.

In closing we ask you not to overlook our advertisement in next week's issue. We are going to hold a TIRE SALE on Saturday, September 7th.

Respectfully yours,

Our Troops Clamor for Chocolate Bars

(By Frederick A. Smith.)
With the American Armies in France.—After several days with a dashing regiment of artillery, messing with officers and men, sleeping in shattered chateaux and sharing with them the grandeur of a struggle against an enemy seldom visible, I have come away from the line with a message to deliver to hundreds of mothers. It is a message which should reassure and make them proud.
First, the perfect discipline, the esprit de corps, the robust health, the intelligent broad view of the best way to beat the Hun and why it is a sacred duty to do so, have given the regiment an efficiency that has inspired the spontaneous praise of the co-operating French forces and American infantry. Second, the same efficiency and intelligent direction have reduced losses from all causes to a minimum, despite participation in some of the most violent phases of the second battle of the Marne.
Want Letters and Chocolate. A machine gunner took me to one side when departing, saying: "You want to know what to say for us to our mothers? Say we are happy and busy, but ought to write them often. Still, if they want to send something, tell them to send letters and Chocolate Bars."

If you have no boy of your own "over there," send some to some other mother's boy. It's the LEAST you can do—and he will think kindly of the unknown donor.

No Discount After September 1.

The Oregon Power Company announces that commencing September 1st the discount which up to this time has been allowed for the prompt payment of electric light and power bills will be discontinued. The company in common with every one else is struggling with increased expenses. Wages, salaries and all other operating expenses have increased at a very heavy rate and the company has for some time contemplated an increase in rates. This they hope to avoid. The cost of labor and material has increased during the past five or ten years, but the company has reduced its rates during this period, so that everyone could use electricity. The expenses of the company have suddenly increased. A small part of the increased expenses can be met by discontinuing this discount and the company proposes to try this before asking for an increase which they hope will not be necessary.
