

The Man Who Buys Cheap Goods To Save Money, Is Like The Man Who Stops The Clock To Save Time

There is no consistency in the act of a person who attempts to save money in the purchase of drugs or the compounding of a prescription.

In some lines of business price may well be featured as a talking point, but in the drug business, quality, regardless of price, should be the main consideration.

We handle pure, potent drugs and guarantee the quality of everything sold, and the prices which we charge are as low as those asked elsewhere for a similar quality of goods.

The same high standard which we place on drugs also applies to our drug sundries and various side lines.

If you are a careful buyer we solicit your business.

FIRE STARTS IN INTERIOR OF Cliff's Restaurant Tuesday. Small Damage Done

A fire caused by the close proximity of a stove to the wall was started in the Cliff restaurant Tuesday afternoon. The stove was about two feet from the side wall in the dining room and the blaze was started by some papers, which had been stuffed between the wall and the stove. The papers ignited and the flames spread over the side wall and up to the ceiling. The fire alarm was sounded and several citizens responded and the flames were quickly put out by a couple of buckets of water. The only damage to the building was a burned place on the wall and ceiling.
