

The Mineral Oil Treatment for Constipation.

Was First Advocated by a Famous English Surgeon and Now by Eminent Physicians Everywhere

Mineral Oil is an excellent lubricant for the intestinal tract. In other words, it acts as a substitute for the mucous which exhausted nature failed to supply. It relieves constipation in a natural way and its use for a limited time will overcome the trouble permanently.

Squibb's Mineral Oil

Is a colorless, odorless and tasteless preparation. It is slow but sure in action and leaves no bad after effects. We consider this oil equal to the famous Russian Mineral Oils which are not now available.

PRICE—\$1.00

Newland's have an advertisement in this issue that it will pay every reader of the News to read if they contemplate purchasing anything therein listed. The prices are below the retail market and are the first indications of the decline in price of many textiles. Mr. Newland watched his chance and bought his goods in the East after a slump in prices was due. Reconstruction is on its way.
