

"You May Have Some Difficulty In Finding One of the Ingredients in this Prescription"

If your physician ever makes such a statement when handing you a prescription—you should bring it directly to us. All the new and rare drugs are stocked by us just as soon as they appear on the market. This is done because our prescription business is very large and we are required to handle scores of remedies that many druggists do not have.

If It's Worthy We Have It

You'll save time and worry by letting us fill your difficult prescriptions.
