### HARRY SHEA IS OFFICIAL "CHIN HOLDER" AT M'CREIDIE

The following letter from H. T. Shea, the general manager of the Mountain States Power company, who is spending his vacation at McCreddie Springs, would indicate he is having some time. He doesn't say whether the chins he is holding up are of the male or female gender, but we have a pretty good idea, anyway.

Following is the letter: Editor Springfield News, Springfield, Oregon.

I did not want to neglect my weekly list of items, even if I am out of town, so am inclosing a few from this place. My duty as official "chin holder" of the beginners in the swimming tank keeps me pretty busy—Having a fine time.

Mrs. Shea and I spend two to three hours in the swimming tank every afternoon.

The hotel is crowded with guests—the cottages are full and several campers.

Some of the results of the Springs and baths are wonderful. One lady who has not been able to walk with-out aid for 20 years is daily walking around almost as fast as I can and in a short time this will be the best resort in the Northwest. I trust all is well with you—we will be home next Thursday.

H. T. SHEA.

McCreddie Springs, August, 12, 1919.—Mr. and Mrs. O. Y. Kessey and son, Wm. Long, wife and family and Orson Vaughn drove in Saturday—Kessey gave an exhibition of his famous "Beaver crawl" stroke in the swimming pool—they left for home Sunday evening.

Dr. R. P. Mortensen, wife and family arrived Monday. The doctor caught the largest (?) fish of the week and is at present in training to be swimming champion.

Mr. and Mrs. T. N. Stewart and Mrs. A. P. McKenzie came in Sunday.

Mrs. H. J. Cox and Mrs. Barbara Darling are camping here for two weeks.

Mr. and Mrs. Kenneth Barrett nee Aris Thompson, drove in Tuesday and stayed long enough to take a dip in the swimming pool.

An informal dance in the dining room of the hotel last Saturday evening was enjoyed by the guests and campers.

Mrs. Nina Burton has returned from a visit with her mother, Mrs. Butler, in Portland.

### The Best Plaster

A piece of flannel dampened with Chamberlain's Liniment and bound on over the seat of pain is often more effectual for a lame back than a plaster and does not cost anything like as much.

### GAS RATES TO INCREASE BEGINNING NEXT WEEK

Beginning August 20, residents of Springfield and Eugene will be compelled to pay more for gas, according to the decision of the public service commission, which has been investigating the application of the Oregon Power company to raise their rates, the application being made in November, 1918. The matter was heard fully at this time, testimony was taken, and exhibits were offered and received.

According to the decision rendered, the company, about November, 1913, thinking it possible to increase their output by the reduction of gas rates, voluntarily made application to the commission for reduced prices. They did this in order to popularize the use of gas and thereby increase the volume of sales. The records show that this expected increase in sales did not materialize, and the benefit of the reduction inured to the customers only.

The decision states that this gas utility should be assured of its continued operation, and this can only be done by allowing the company such rates as are necessary to meet the increased costs of manufacture, an allowance for accruing depreciation, and if possible give a fair return on the fair value of the property devoted to the public service.

The new rate schedule as it has been prepared follows: First 200 cubic feet or less, per month 75 cents; next 2700 cubic feet, per month \$1.50; per 1000 cubic feet; next 7000 cubic feet, per month \$1.50 per 1000 cubic feet; next 15,000 cubic feet, per month \$1.25 per 1000 cubic feet. Excess over 25,000 cubic feet, per month \$1.00.

If the customer's meter is removed because of nonpayment of a bill, reconnection will be made, if desired, upon the payment of \$1 plus any amount then due the company.

### SPRINGFIELD PLEASSED BY QUICK RESULTS

Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped by ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. M. M. Peery Drug Co.

S. Vance Ogley, junior partner of the News, returned Monday from a week in Portland where he attended the National Editorial Convention which was held there Friday, Saturday and Sunday.

Miss Agnes E. Lillis, of San Francisco, was a visitor for a few days with Mrs. C. W. Tzee. Miss Lillis is on her way home from a two weeks' vacation in Seattle, Tacoma and Portland.

## PUBLIC HEALTH NURSE TO GIVE DEMONSTRATION

Miss Jane C. Allen and Miss Mary Brownell visited Springfield today and spent the day getting in touch with the physicians and a few of the representative citizens in the interest of the work of the public health nurse in Lane county. Miss Allen is the state organizer of this work and Miss Brownell is the nurse who will give a three months' demonstration here.

County public health nursing is fast becoming general throughout the country since the war has awakened the people to the fact that there is urgent need of steps toward improving the health of the people. The startling statement by the government that 35 per cent of all men examined by the draft boards were rejected as physically unfit and that a large proportion of these men's physical defects in childhood has caused a widespread interest in this matter such as has never before been known. Prenatal work, infant welfare work and the inspection of school children for symptoms of physical defects have assumed important places in a far-reaching and nation-wide program of public health work.

The public health nurse, especially in the small towns and the rural sections, is generally conceded to hold first place in this program. Oregon has attacked the problem and the State Tuberculosis Association, which obtains its funds through the sale of the Little Red Cross Christmas Seal, has been designated by the Board of Health as the agency to carry on this work. This association has already induced the counties of Jackson and Coos to employ county public health nurses and the counties of Clatsop, Umatilla, Linn, Union and Klamath are seriously considering the plan, and in several of these such nurses are beginning this work. Miss Brownell has been sent into Lane to do public health nursing for three months and the county will then be asked to take over the work at county expense. Her services will be free and she will be glad to respond to all calls as promptly as possible.

The work she is prepared to do is in the nature of instruction primarily. Having such a large territory as her field of work, she cannot necessarily stay long in a community at a time. She expects to make her visits to the different communities on a definite schedule. Each visit to a section will include some work in the public schools, giving such pupils as need it and whose parents wish it a nurse's inspection for physical defects. This inspection is the testing of the vision and the looking at the condition of the teeth and tonsils. Sealed notes will then be sent to the parents telling them of the findings of the nurse and advising them to take their children to their family physician for diagnosis and care. Visits to the homes to instruct the parents in matters of health and to teach them the proper care of babies or of sick patients will also be made whenever necessary. She will also be glad to give talks to groups of people, clubs, parent-teacher circles, etc.

Miss Brownell has selected Eugene as her headquarters and has opened an office on the second floor of the Court House where she can be found every Saturday afternoon from one to five. Calls may be sent her at phone number 34 or 337-J, or through the mail, box 38.

### COUNTY JAIL PRISONER ESCAPES ROAD CREW

Dalton Saunders, who has been laying out a sentence in the county jail, has escaped the custody of the officers, who are now searching for him. Dalton has been confined because of failure to pay a board bill at a Springfield boarding house. Saturday he was let out to Aho Gilbert, a road supervisor in the Rattlesnake battle country, and was working on the rock pile. During the day, he disappeared, and nothing has yet been heard of his whereabouts. Saunders was also arrested last week on a charge of stealing an automobile.

## JAPAN'S PEACEFUL PENETRATION OF THE PACIFIC COAST STATES

(Continued from Page One)

decided now; and on a wise decision may depend the future salvation of the world's great Republic.

### ARTICLE I.

Sidney Gulick's Mission to America—His "Oriental Policy"—Securing Endorsement of a Great Church Federation—Organization of the League for "Constructive Immigration"—Why the Japanese is Undesirable as Immigrant and Citizen.

Japanese propaganda is being carried on in this country as determinedly and as successfully as was German propaganda before we entered the war. The end sought is the same—the conquest of the United States. The means are different. Conquest by arms was shown within the past two years to be impracticable. Conquest by "peaceful penetration" is now the plan.

There is now openly operating in the United States an organization whose work, if successful, will make the country in a comparatively few generations a province of Japan.

The promoter and manager of the organization is a professor of the Imperial University of Kyoto, Japan, who has been in this country on furlough for five years and engaged during that time in this work. The President of the organization is one of the organizers of the Japan Society of America. So cleverly has the plan of organization been carried out under the guise of protection to American citizenship and restriction of immigration generally, that 1,000 representative American citizens in various states of the Union have given it innocently their endorsement and financial support.

The organization has prepared a bill for presentation to Congress which will let down the bars and pave the way for future contributory legislation to hasten the end.

The first work of the promoter, five years ago, was to secure the endorsement and financial assistance of a combination of Protestant churches representing over 100,000 ministers and over 17,000,000 members, which organization pledged itself to the scheme and efficiently aided it—also undoubtedly in ignorance of its full significance.

Hawaii is already hopelessly Japanese, that race now comprising one-half the total population of the territory, and having more than four times the number of Caucasians or any other race.

In a few years the Hawaiian-born Japanese will rule the territory by their votes, and rule it not as Americans, but as Japanese, while under the proposed legislation the Japanese vote would be given immediate preponderance.

What has already happened in Hawaii is now rapidly progressing in California, and it is only a question of time under existing conditions—and even without aid of the proposed legislation—when all the fertile spots of the State will be peopled by Japanese to the exclusion of whites.

Our civilization cannot exist beside theirs in the face of economic competition and a birth rate per 1,000 five times or more as great as ours.

What is happening in California will be brought about in all spots of the United States sufficiently fertile and advantageously located to attract the settlement of the Japanese, provided conditions permit their steady and rapid increase within our borders, as contemplated by the promoters of the plan.

If the plan now urged upon Congress be adopted this year the Japanese population of the United States will be 100,000,000 in one hundred and forty years from now, on the basis of a ratio of natural increase about half of that now shown by the Japanese in California.

Under the Gentlemen's Agreement, as now operated by Japan, the process would be slower, but equally effective. In either event this country would become a province of Japan.

(Continued Next Week)

Roy Love, of Jasper was in town Wednesday, on business.

Frank Wagner, of Portland, is visiting his cousin, Miss Elaine Jenkins.

### How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
