**"BUY LESS,"  
RETAIL MEN  
WARN PUBLIC**

San Francisco—The retail dealers' advice to the victims of high prices is to curtail buying. Following is a portion of a letter from Edward A. MacLean, secretary of the Oregon Retail Merchants' Association, to Governor John U. Calkins of the San Francisco Federal Reserve Bank:

"Portland, Oregon,  
August 28, 1919.

"So long as the free buying spirit of the American public exists, mayors and governors can fuss and fume and Congress can enact what it pleases, but high prices will continue. It is my opinion that the purchase of government securities such as War Savings Stamps and Treasury Savings Certificates instead of merchandise will hasten the overthrow of the 'high cost of living.'

"Here is the point—it is high time that the American people were brought to realize that the responsibility for the high cost of living is not a responsibility of Congress or any other agency. Unless the American people, themselves, quit supporting high prices, they can right now make up their minds to pay high prices for some time to come.

Yours very truly,  
(Signed) E. A. MacLEAN,  
Secretary,  
Oregon State Retailers' Association."

**SEVEN STATES  
SAVED MILLIONS  
IN SEVEN MONTHS**

Thrifty Westerners' Investments Will Earn Nearly Million and One-half Interest

San Francisco.—Thrifty folks in the seven states of the Twelfth Federal Reserve District saved \$6,427,308 by purchasing Thrift and War Savings Stamps from January 1 to July 26, 1919, according to a report made by the San Francisco Federal Reserve Bank. Five years from now at their date of maturity, those stamps will be worth just about a million and a half dollars more than they cost the purchasers. In other words, the United States Government will pay back to the Stamp purchasers approximately \$8,000,000 for \$6,427,308.

Every man, woman and child who buys Thrift and War Savings Stamps or Treasury Savings Certificates this year will share in the Government's dividend. Get into a War Savings Society in your community, save and invest your savings in Stamps and certificates and get your share of the melon. You can buy a Thrift Stamp for twenty-five cents.

**CONNECTICUT  
BUYS STAMPS**

New London, Conn.—The State of Connecticut, through G. Harold Gilpatric, state treasurer, has purchased \$1000 worth of W. S. S. as an investment for state funds. They will be held until the date of maturity. The purchase is to be credited to the city of Putnam, of which Gilpatric is a resident.

The Connecticut state treasury subscribed for \$1,250,000 worth of Victory notes during the last campaign. This brought the total of the state's investment in government war securities up to more than \$2,000,000.

With the purchasing power of the dollar lower than it has ever been, it is the part of wisdom to put some of them to work, earning interest, until the time that money is worth more. War Savings Stamps enable the wage earner to do this. Save what you can and invest it in W. S. S.

**Ships and Their Names.**

Peace has brought with it the incidental discussion in a section of the English press of the meaning of and reason for the names of certain ships in the British navy. Truly my lords of the admiralty, acting as sponsors, have gone to some strange sources for the nomenclature. Not merely countries and cities have been drawn upon, but many of the creatures figuring in a menagerie have been freely utilized. Then there are the vessels named after the public schools and institutions of England, such as Uppingham, Tonbridge, Westminster, Rugby, Cheltenham, Epsom and so on. If Eton should feel jealous over the matter of its neglect it can take a kind of reflected comfort in the fact that there is a destroyer called Windsor.

**See the big Nobs**

The 'Nobby' is a big rough husky fellow. The tire they are all talking about.

A great road gripper—a sure enough non-skidder and non-slipper.

Makes easier riding and easier driving. More safety, more comfort—more mileage.

'Nobby' is a United States Tire, —which means none better. Just right for our roads.

**\$100 Reward, \$100**

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. **Chamberlain's Cough Remedy**  
This is not only one of the best and most efficient medicines for coughs, colds, croup and whooping cough, but is also pleasant to take, which is important when a medicine must be given to young children. Chamberlain's Cough Remedy has been in use for many years and has met with much favor wherever its good qualities have become known. Many mothers have given it their endorsement. Wm. Scruby, Ohlissotho, Mo., writes, "I have raised three children, and always used Chamberlain's Cough Remedy and found it to be the best for coughs, colds and croup. It is pleasant to take. Both adults and children like it. My wife and I have always felt safe from croup with it in the house." Chamberlain's Cough Remedy contains no opium or other narcotic.

**English Lenses Superior.**  
When aero-photography commenced to play its great part in the war, it was found that the German-made lenses would do the work of picturing from above far better than British-made lenses. But the English opticians set to work, and in a short time they produced lenses that beat the German product fair and square. Captured aero-photographic apparatus during the latter part of the war showed that the lenses were inferior in quality to those made in Britain. No German-made lens has yet been found that would picture a barbed wire entanglement from a height of three miles, but the British product would, and very often did.

**THE BEST OF  
MOTOR OILS**

Correct lubricants are the most economical—sometimes in the beginning, always in the end. The engine of your car is the propelling power. It is the most important part. And it is highly probable that the oils you use exert a larger influence on your engine than any other feature.

**Protection for Your  
Engine**

Keep your car out of the repair shop by keeping the right oil in your engine. The right oil need not be the most expensive, but it is oil that has been tested. It has been proved by its action on many cars in many kinds of service. That is the kind of oil we sell. You can make no mistake in filling up here always.

PROMPT SERVICE—CERTAIN SATISFACTION.
