

# THE SPRINGFIELD NEWS

SIXTEENTH YEAR.

SPRINGFIELD, LANE COUNTY, OREGON, FRIDAY, OCTOBER 3, 1919

NUMBER 38

## WINIFRED MAY AND JESSE MAY HOME FROM OVERSEAS

Corporals Jesse Meats and Winifred Mays, who enlisted from Springfield at the beginning of the war, arrived home last Saturday evening from San Francisco, where they were in the Letterman hospital for a month taking treatment for ear trouble caused by concussion incident to their service as artillerymen.

The boys came to San Francisco from overseas, where they had practically identical experience. Both were members of B battery, Sixth field artillery, First army division. They participated in eight artillery engagements and operations during sixteen months in France and then when the truce was signed served for eight months with the army of occupation in Germany.

Mr. Mays plans to remain in Springfield until the first of the year and then enroll at the State university or the State college at Corvallis.

## BIG MONEY FROM SIXTEEN ACRES OF CLOVER

Ed Petty, of Creswell, was in town Tuesday and sold forty-three bushels of clover seed to a local dealer, receiving a check for \$988.40 in payment for same.

The seed is a part of the product of sixteen acres. After selling the forty-three bushels, Mr. Petty has 120 pounds of seed left for his own use. Also, he has twenty-five tons of first-class clover hay, the output of the first cutting from the sixteen acres.

Mr. Petty's place consists of twenty acres in all, and is a part of the donation land claim secured by his grandfather, Joseph N. Petty, in 1853, since which early day until within the last few years it has grown nothing but wheat and oats, and has never been summer fallowed.

Mr. Petty sowed his sixteen acres of clover last year, filling with wheat, and he then got seventeen bushels of wheat to the acre from the tract.

## WALTERVILLE MERCHANT SELLS OUT

J. A. Cobb, of Cobb Bros., merchandise brokers, Portland, was in town last Saturday and announced the purchase by his company of the entire stock and buildings of the G. Gebauer general merchandise store at Walterville, the consideration being \$13,800. The new owners are disposing of the old stock at a big closing-out sale.

Mr. Gebauer, who had been in business at Walterville for seven years, has purchased a residence at Eugene, and will move with his family to that city and make his home.

## ZIOLKOWSKI BROS. MAKE GOOD WITH DRAG SAW

The Ziolkowski brothers, three in number and ranging down in age from eighteen years, have put over a good example during the past month of well-directed youthful energy.

About the first of August they got a Wade drag saw of the Springfield Feed Company, having first secured some stumpage on the McKenzie five miles west of the Hendricks bridge.

They then got busy with the saw, in some good big stuff—trees five to six feet through—and within three weeks had a hundred cords of wood sawed up and partly delivered by auto truck, which they had in the meantime also secured, at Springfield and Eugene.

They have several hundred cords ahead to get out.

The boys are quite enthusiastic about the merits of the drag saw, and Mr. Conoway, manager of the Springfield Feed Company, becomes equally enthused when he describes the energy of the boys, which he declares he has yet to find equaled by youngsters of their ages.

Parents should read what Dr. Dippel has to say about "Children's Teeth" on page 3 of this paper.

## Mailing Fowls and Animals

Under date of September 15, Postmaster Stewart has received notice from the department that section 476, paragraph 4, Postal Laws and Regulations, has been amended so as to read as follows:

"Live fowls and live domestic animals shall be accepted for mailing (without insurance or C. O. D. privilege) when securely and properly crated and can be delivered to addressee within 48 hours from time of mailing; such mailing shall not apply on any star or rural route, but shall be confined exclusively to rural motor vehicle truck routes and country motor express routes, and then only when delivery can be effected on the route where mailed or on a connecting rural motor vehicle truck route or country motor express route."

## PUBLIC SCHOOL ENROLLMENT GROWS

Seven new students in the High school this week, bringing the enrollment up to 96. Also 10 or 15 new pupils in the grades.

Domestic science classes have been organized as follows:

Seventh grade, 9 girls, sewing.  
Eighth grade, 14 girls, cooking.  
Ninth grade, 13 girls, cooking and sewing.

Tenth and eleventh grades, 6 girls, advanced work in cooking and sewing. Miss Martha Williams is the teacher in charge of the work.

Classes in Manual training have also been organized in the Seventh and Eighth grades, and in the High school. Harold M. Mabrey is the manual training instructor. About forty boys will be given this work.

The High school teaching force is being increased and strengthened by the addition of special teachers from the U. of O. Those assigned this week are: J. J. O'Day, Physics; Miss Beatrice Yorlan, French.

It was proposed to start a class or classes in Latin, French, or Spanish. So far the demand has been as follows: French 1, Latin 2, Spanish 12. Arrangements are therefore being made to start a class in Spanish. Latin and French will be taken up if a sufficient number to form classes ask for these subjects.

## RETURN FROM G. A. R. ENCAMPMENT

Lee W. Clark, Springfield's young veteran of the Civil War, accompanied by Mrs. Clark, arrived home from the East last Sunday evening. After attending the encampment of the Grand Army of the Republic at Columbus, Ohio, they visited at their old home, Indianapolis, for a few days, and then at Grand Rapids, Michigan, the home of their daughter. They report an interesting trip and visit, but were right happy to get back to Oregon. The weather during the encampment was extremely hot, and some of the veterans were so overcome at times by the heat as to necessitate medical attention. Next year's encampment of the soldier boys of the '60s will be held at Atlantic City, New Jersey.

## KNOTT—MOSHIER

A beautiful home wedding was solemnized Wednesday, October 1st, at the home of Mr. and Mrs. William E. Knott when their daughter, Marjorie, became the bride of Roland E. Moshier. The rooms were beautifully decorated with pink roses, carnations and ferns. The bride wore a charming gown of white satin and a tulle veil caught with Cecil Brunner roses, and carried a large bouquet of bride's roses. The ceremony was performed by Rev. Teddy W. Leavitt, of the Christian church. After the ceremony a buffet luncheon was served. Mr. and Mrs. Moshier left immediately for their wedding trip. Upon returning they will make their home in Springfield, where Mr. Moshier will resume his position with the Springfield Creamery.

Dr. S. Ralph Dippel, dentist, Springfield, Oregon.

## INDUSTRIAL REVIEW

Wilbur has let a contract for a \$20,000 school building.

Hermiston—25,000 boxes of apples have been sold by growers here at \$2.22 to \$2.35 a box.

Baker—The gold and silver mines near Sumpter will soon start operations. The Eureka and Excelsior properties have been leased by the Oregon-Idaho Investment Company, of this city.

Enterprise—The East Oregon Lumber Company will rebuild the mill here destroyed by fire.

Lebanon—A new shingle mill is to be erected here.

North Bend—The Buchner sawmill company is building a shingle-mill plant.

Several new buildings are to be erected for the Indian school at Chemawa.

The Pheasant Products Company is to build a \$165,000 cold-storage plant at Salem.

Contracts for the erection of a new Elks' home at Pendleton have been signed.

Jefferson is to have a new cannery. Roseburg—Fish hatchery plans have been prepared. Douglas county is to be supplied with trout fry from the Oakridge plant.

A Shorthorn beef cow was recently sold at Medford for \$4,100, which is claimed to be the record price for the coast.

The California Packing Company's plant at Roseburg is completed.

Portland—The Oregon City Manufacturing Company has opened a new plant here to make mackinaw coats, shirts and other wearing apparel.

Hermiston—Alfalfa crops in this district yielded farmers \$100 an acre this season.

A Cottage Grove man raised seventeen tons of beans, bringing him \$1,700, on three acres.

Roseburg—John Alexander, of this city, has ordered 15,000 loganberry plants for himself and Blakely brothers, who reside near Glide. Mr. Alexander expects to plant a number of acres of loganberries on his farm at Glide the coming winter. Loganberries have brought excellent returns to the growers of this vicinity and the

industry seems destined to grow rapidly.

Wallace (Idaho) Press Times: The Plumb railroad plan would do one thing. It would prevent communities getting excited over the coming of a new railroad line. The line simply wouldn't come and many of those now in use would pass out of existence.

## CIVIL WAR VETERAN PASSES OVER

P. W. Green died at the Springfield hospital Wednesday afternoon. He had undergone a major operation September 14, and was to all appearances recovering nicely, having been up and around at times since last Sunday. Sudden development of heart trouble caused his death.

The funeral takes place this afternoon at 2:30 o'clock, from the Walker chapel.

Preston W. Green was born in Marshall county, Indiana, August 15, 1841. During the Civil War he served in the Twelfth Indiana cavalry. He came to Oregon fourteen years ago and was a resident of Springfield for ten years.

Deceased is survived by his wife and two sons, one living in Indiana and the other at Foster, Oregon; also eight grandchildren. One son died of influenza in this city last winter and five other children had died previously.

## Railroads Hold Up Lumbering

Car shortage begins to hold up distribution of the lumber product and last week shipments were about twelve million feet less than production.

At this season of the year when crops move the car shortage increases for movement of cheaper raw materials, including lumber.

It will require the mills many months to replenish stocks, as every retail yard in the country is similarly short and eager to lay in a supply.

The possibility of higher freight rates also enters into the situation. Many retail dealers are playing safe by buying their lumber now.

The home-owning movement has been responsible for heavy domestic orders. Foreign orders are limited only by the volume of tonnage available to handle the business.

New business accepted last week was 62,238,724 feet, of which 47,220,000 feet was for rail movement.

News, \$1.75 per year in advance.

## BIG CARNIVAL IN SPRINGFIELD OCTOBER 13-18

Under Auspices of American Legion—  
Tractor Demonstrations and Aircraft Flights Being Arranged

Brown's Amusement company will present its carnival attractions during the week of October 13 in Springfield under the auspices and for the benefit of the American Legion.

According to a statement of the management of the company, the shows to be presented contain none "for men only", and any woman or child can visit with impunity, as nothing is said, seen or done that is not presented in the higher priced theaters.

A Hawaiian village, a musical comedy show, Gorden's Wonderland, A. L. Burgin's sideshow with Jolly Eva, the fattest woman on earth, and many other freaks and curiosities from all corners of the globe are among the attractions.

A California cabaret, Slocum's miracle show, and a merry-go-round and ferris wheel are special attractions for the little ones.

The grounds will be thrown open to the public at 7 o'clock Monday night, October 13.

In addition to the carnival attractions, an exhibit and demonstration of the working of tractors in a field adjoining town has practically been arranged for by a committee of the American Legion. Flights by the Eugene Aero Company's plane probably will also be part of the week's programme.

## BEEES PAY WELL

The Florence West: A. Johansen, of Heceta, informs us that he has one colony of bees this year from which he has taken 300 pounds of honey after it was extracted.

Mr. Johansen last spring had ten colonies of bees and these have made for him this summer an average of 170 pounds of extracted honey for each colony. Besides this he has nine new colonies, giving him nineteen colonies in his apiary.

M. Johansen started five years ago with one colony and the increase from that to the present time gives him his present stock of nineteen colonies. At present prices his honey crop this year is worth about \$490 besides the increase in numbers.

He has studied the bee industry and manages his apiary according to the latest methods.

## Can Now Eat and Sleep in Comfort.

If troubled with indigestion or sleeplessness you should read what Miss Agnes Turner, Chicago, Illinois, has to say: "Overwork, irregular meals and carelessness regarding the ordinary rules of health, gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headache, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark, yellow and muddy as I felt. Sleeplessness was added to my misery, and I would awake as tired as when I went to sleep. I heard of Chamberlain's Tablets and found such relief after taking them that I kept up the treatment for nearly two months. They cleansed my stomach, invigorated my system, and since that time I can eat and sleep in comfort. I am today entirely well."

Say, Mr. Springfield resident, transfer that banking account from Eugene to the First National Bank of Springfield. Boost for Springfield in practice as well as in words. If not, why not?
