SPRINGFIELD, OREGON

IRA PARKER WHITNEY APPOINTED AGRICULTURAL AGENT

After a long and careful search being made for a well qualified successor to N. S. Robb, former county agricultural agent of Lane county, Ira Parker Whitney, of Spokane, Washington has been selected from many applicants, and will report for duty on December 1st.

Mr. Whitney is a married man, 36 years of age, and was raised in the Willamette valley, having spent several years on his father's farms in Linn and Lincoln counties. He graduated from the Oregon Agricultural College in 1905. From 1905 to 1910 he was instructor in the dairy department of the Washington State College, and while in this position became widely known in dairy circles throughout the Northwest. He was a very successful Institute worker and very influential in dairy conventions.

For the past ten years Mr. Whitney has been manager of the "Walkiki Stock Farms" near Spokane, Washington, owned by J. C. Graves. During this period Mr. Whitney was successful in building up one of the greatest dairy herds in the Western part of the United States. He has made remarkable production and show yard records.

Mr. Whitney has been chairman of the agricultural committee of the Spokane Chamber of Commerce and at the present time is superintendent of the Dairy show, in which 1000 dairy animals have been entered. Up to the present time this is the largest show that has been held in the West.

According to the Oregon Agricultural College, Mr. Whitney is one of the very strongest men who has ever entered the county agent service in the state, and it is their belief that Lane county is to be congratulated upon securing Mr. Whitney for county agent.

SMALL FRUITS AND LAND DEVELOPMENT

One of the greatest resources in the state of Oregon, and particularly the Willamette valley, is the small-fruit industry, especially loganberries and strawberries. Soil and climate conditions are perfect for these fruits, which are the backbone of the jelly, jam, preserve and canning industry for world markets.

A few years ago loganberries were unsaleable, due to over-production on the one hand and an extremely limited market on the other. It was not until an organized effort was made to convert the loganberry into a fruit juice, backed by a nation-wide campaign of advertising such as the Phez company inaugurated at an expense of \$100,000 per annum, that this most delicious fruit came into its own. Today the supply of loganberries is totally inadequate to meet the demand.

Just so with the strawberry. The price for a period of 10 years ranged around 4½ cents per pound. In 1919 the market opened at 10 cents per pound and closed at 12 cents per pound. Fruit preserving and canning, coupled with an advertising campaign, captured world markets and today the manufacturing end of the fruit industry is being retarded through lack of the necessary acreage to justify the establishment of more manufacturing plants. This is what industry does for agricultural development; it creates a market for the farmer, and all should join in the campaign for increased production.

It will be impossible to overdo the small fruit industry. Stocks are down to bedrock, likewise the existing acreage. Growers can make contracts for long periods at prices which will show a net profit of all the way from \$150 to \$200 an acre, which means 10% on land values of \$1500 and \$2000 an acre.

Summing it up, small fruits mean more factories, bigger payrolls, increased population, enhanced property valuations and splendid profits to he who follows the cultivator and the plow.

SPRINGFIELD PLEASSED

BY QUICK RESULTS
Everyone is pleased with the quick results of simple witchhazel, camphor, hydrastis, etc., as mixed in Lavoptik eye wash. One man's eyes were so badly strained he could not read without pain. Two applications relieved him. A lady with weak, inflamed eyes was greatly helped with ONE bottle. We guarantee a small bottle of Lavoptik to help ANY CASE weak, strained or inflamed eyes. M. M. PEERY DRUG COMPANY.

"Here's a Friendly Tip" says the Good Judge

Men who know tobacco, chew the best without its costing them any more. They take a little chew and it's amazing how the good taste stays in a rich, high grade chewing tobacco. For lasting tobacco satisfaction, there's nothing like a small chew of that rich-tasting tobacco.

THE REAL TOBACCO CHEW

put up in two styles

RIGHT CUT is a short-cut tobacco

W-B CUT is a long fine-cut tobacco

Weyman-Bruton Company, 1107 Broadway, New York City

TASTE YOUR BREAD—With our Bread every taste gains in sweetness.

You know how it is. With some sweets you like to swallow them down quick. Others are such a treat to the palate you hate to let them go.

GOOD BREAD belongs to the second class.

You want to keep on chewing it because it is worth chewing.

Insist on our Bread—the bread with the bread taste.

EGGIMANN'S

GOOD POULTRY PROFIT

Oregon Agricultural College, Corvallis.—A net cash profit of \$76.23 was made by O. L. Dunlap, of Junction City, in 142 days from an average of 60½ hens. The figures given cover a period from May 11 to October 4. The hens laid 5087 eggs, an average of 35.8 eggs a day or 83.7 eggs a hen, which figures out 58.2 per cent production for the entire period.

M. Dunlap has one of the O. A. C. demonstration farms. He started with 63 hens and ended with 59. The cash income from these hens was \$233.92 and the cash expense \$126.21. The net income was \$107.71 above the cash expense. After paying for everything that was purchased and everything that was raised on the farm a net cash profit of \$76.23 was left. In addition to this cash profit Mr. Dunlap has raised and still has on hand 112 pullets and 13 cockerels. These chickens are of the single-comb Ancona breed.

PROVES FAILURE

Oregon Agriculture College, Corvallis.—Oregon grain growers are being misled by a California sulphur concern which advocates mixing sulphur with the seed for smut prevention, says H. P. Barsa, plant pathologist of the Oregon experiment station. Inquiry shows that experimental tests with this method in California prove it to be of little value. It is authoritatively reported that the California grower who first tried sulphur for smut has gone back to the successful use of the standard bluestone-lime treatment because he found his crop of wheat growing smuttier each season under the sulphur treatment.

Do you know that the First National Bank of Springfield is both a National and a State Depository? It is the safe place for your account, too.

Dr. S. Ralph Dippel, dentist, Springfield, Oregon.

NO SHORTAGE IN WORLD MEAT SUPPLY

Country.	CATTLE.		SWINE.	
	Before War.	After War.	Before War.	After War.
England	12,185,000	12,311,000	3,953,000	2,809,000
France	14,897,000	13,315,000	7,048,000	4,021,000
Italy	6,646,000	6,186,000	2,722,000	2,337,000
Switzerland	1,443,000	1,530,000	570,000	364,000
Belgium	1,849,000	899,000	1,412,000	318,000
Netherlands	2,097,555	1,969,000	1,350,000	450,000
Denmark	2,463,000	2,142,000	2,497,000	582,000
Sweden	2,721,900	2,584,000	968,000	634,000
Germany	20,994,000	17,227,000	25,659,000	10,080,000
United States	56,592,000	67,866,000	58,933,000	75,587,000
Canada	6,533,000	10,051,000	3,610,000	4,290,000
Argentina	25,867,000	27,050,000	(2,901,000)
Australia	11,745,000	11,040,000	1,026,000	1,169,000
New Zealand	2,020,000	2,888,000	349,000	258,000

The fear that a world meat shortage would follow in the wake of the war was unfounded. These statistics just completed show it. Cattle and swine are the two principal meat animals. All of the European countries show a decrease but the United States, Canada and other countries show an increase to offset such losses.

NOTICE OF SCHOOL MEETING

NOTICE IS HEREBY GIVEN to the legal voters of School District No. 19, of Lane County, State of Oregon, that a SCHOOL MEETING of said District will be held at the High School, on the 24th day of November, 1919, at 7:30 o'clock in the afternoon to vote on the proposition of levying a special district tax.

The total amount of money needed by the district during the fiscal year beginning on June 20, 1919, and ending on June 30, 1920, is estimated in the following budget and includes the amounts to be received from the county school fund, state school fund, special district tax, and all other moneys of the district:

BUDGET

ESTIMATED EXPENDITURES	
1. Teachers' salaries	\$15,939.00
