Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Ding Mulligan and Lowell Sikes have a civil war the first period every day. Influencing language is Miss Derflinger's weak defense.

Miss Machen (in algebra)—"Mr. Signor, can you tell us briefly the story of 'The Bridge of the Gods.'"

Mr. Signor (in a somewhat patting voice)—"Well, that there fellow, he married his wife and then she went and died and he started out to find the 'Bridge of the Gods.'"

Dorothy Doane fell out of her seat Tuesday morning. We hope she was not injured seriously.

Mr. Roth (in general science class)—"Can some one tell me what it is that causes the difference in climate or temperature in different places?"

There were various answers contributed by different members of the class when suddenly a bright little fellow conceiving of a happy inspiration began waving his hand frantically in the air. When called upon he answered with great conviction, "Oh, I know. Ocean currents. That's it."
