When you patronize Springfield's leading bank—the First National—you deal with a city, county, state and national depository. Are you safe? Well, yes, I guess so.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

Take Hall's Family Pills for constipation.

HIGH SCHOOL TAKES UP PHYSICAL CULTURE
Physical training was begun in the high school Monday morning, Mr. Roth taking charge of the boys and Miss Machen taking charge of the girls. This is required in every school under one of the new school laws and is being taken up with a good will. We wish that we might have a hall for this exercise, however and hope that when all doubt concerning the basket ball hall has been settled that we may take advantage of it for this purpose.

Routine of High School Broken.
The regular routine of the high school was most rudely broken into Wednesday morning by the fact that the fire in the assembly hall absolutely refused to burn, due perhaps to the conditions of weather. The pupils were told to go to the different class rooms and make themselves as comfortable as possible during their study periods, as bodily comfort comes above all other things.

Athletics.
Last week a meeting was conducted by the boys, on athletic lines. They elected Harry Hughs manager of athletics and Ashel Fish captain of the basketball team. A committee of five were appointed to draw up rules and qualifications for players. They were as follows: Dell Powell, chairman; Mr. Roth, Ernest Korn, Merit McPherson, Harry Hughs.

Vote of Thanks.
The girls of Springfield high school wish to extend their heartfelt thanks to Superintendent Hamlin for the mirror which has been placed in the front hall.

Personals.
Louie Gibbs is back to school after three days absence.

The domestic art girls are making Christmas presents this week and the domestic science classes are going to make candy for the next few days.

Christmas is coming! The Springfield high school students are quite sure of that from the fact that they had to come to school in the snow. The rooms are also decorated in the Christmas plant, mistletoe.

Miss Roberta Wilson, editor of the S. H. S. Tattler, has survived an attack of smallpox and is now back in school enjoying the trying situation of making up back work.

The bookkeeping class have opened their boxes containing all kinds of business papers and books. This new feature has caused the class to take on an air of great importance.

The members of the advanced stenography class are getting some real office training now. Besides the letters for transcribing they have other long articles quite frequently.

There seems to be some doubt as to whether we shall have a basketball hall. However, it is hoped that we shall soon know definitely.

Ethel Paden returned to school Monday.

Molly Doane has returned to school after an absence of a week on account of smallpox.

Rhoda Jack has returned to school after a weeks absence on account of illness.

The brave athletes of the high school are to meet the second Goshen athletes team this coming Friday night at Goshen.

Glady Edwards has been absent from school for a couple of days on account of illness.

Several of the alumni of S. H. S. visited school last week.

The girls are starting a fad now of wearing mistletoe in their hair.

Grace Shahan has returned to school after being absent for nearly a week. We are glad to have her with us again.

The lease for the W. O. W. hall

was drawn up among the different organizations for the use of said building for basketball playing but the W. O. W. did not accept it and are drawing up one to suit themselves. Let's hope it is satisfactory for all concerned, for there are a few teams wishing to play S. H. S. in the near future.

Vivian Senseney has been absent from school for a few days.

Jess Larrison, a former student, is home on a visit from Washington where he has been working.

Jokes.
It rained 'goat feathers' Tuesday morning and S. H. S. grew wool.

In history—Mona McHenry: "Mr. Roth, I don't know beans about the first of this book."

Mr. Roth: "Then you're all right. This book doesn't pertain to beans."

This snow is hard on the girls' complexions, as very few drug stores will guarantee against water, and the boys are death on the idea of washing the hands and face often.

After working hard to clean up the W. O. W. hall which they thought they were to get for high school purposes, the committee went to get their lease signed and the Woodman committee refused to sign it. Moral: Be more business like and get the hall before you clean it.

Of all disagreeable things! Dorothy Girard is quite peeved because Mr. Bailey looked cross-eyed at her. He must have been trying to look at two pretty girls at once.

Just listen to this: Margaret McElhany has found her "knight" at last.

Ashel Fish is the head bank clerk in the bookkeeping class.

Any one can tell it is the end of this six weeks if they will come up to the typewriting room and see how some pupils are working at about 4 p. m.

The bookkeeping class of the high school is now getting down to the real "dope" and there is a certain table in this said class that is surrounded by boys; there has been so many arguments every time their accounts don't balance or some figures are wrong that they have decided to all contribute a little money and buy a bookkeeping machine or hire a professional bookkeeper to settle the

XMAS SUGGESTIONS FOR THE MOTORIST

- CHAINS:**
Weeds in Rid-O-Skid — Regular and Extra Heavy.
- ROBES:**
A few in stock at prices right.
- SPOTLIGHTS:**
From \$5.50 to \$7.25, put on your car.
- BUMPERS:**
\$7.00 and up. Save your radiator from a wreck.
- FORD SWITCH-LOCKS:**
\$4.00 put on. These are "Real Insurance."
- WINDSHIELD RUBBERS:**
Keep the rain out of the car.
- FORD COIL PROTECTORS:**
Protect your coils from dampness.

News, \$1.75 per year in advance.

arguments that may arise. Asahel Fish and Ralph Love say that they know where they can get a good adding machine very cheap. Ralph and "Grub" Deets argued one whole period on one column of figures and they found out afterwards that they were both wrong and so I myself am in favor of an adding machine or something to settle their daily "racket" so the rest of us can study a little. We'll all watch their "smoke."

If a prize were to be given to the one in bookkeeping having the most papers on the floor and desk it is believed that George Signor would get first prize.

Mr. Roth is continually asking, "Why does it snow?" One of his brave little general science pupils in thinking it over decided that it was because Christmas is coming.

Miss Derflinger (in English, discuss-

ing the meaning of the word respond): "If you responded to a Red Cross drive by refusing to give money it would not be a respond."

Vesta LaTue, who seems to be afraid that she will not pass in the six week exams, brought some yeast to school the other day for the very important purpose of raising her grades.

We have interesting topics to discuss in history III these days. Dorothy Girard thinks that she can prove that the world is a globe by gazing over a book at Mr. Bailey. Emma Travis disagrees.
