At a recent meeting of the Linn County Good Roads association, Rex W. Harris of Harrisburg was elected president. R. A. Booth of Eugene was one of the principal speakers.

Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure, sent for circulars, free.
F. J. CHENEY & CO., Toledo, Ohio.

In Society

By Dorris Sikes

Coming as a complete surprise even to their relatives and closest friends was the wedding last Thursday afternoon of Mrs. Etta Fisher and W. E. Gibbons, both of this city, at the home of Rev. E. K. Storli, pastor of the Trinity Lutheran church in Eugene. Mrs. Fisher is the daughter of Mrs. Belle Spang, manager of the Springfield hotel, and Mr. Gibbons had been employed as butcher for Swarts & Washburne. The couple left Saturday to make their home in Albany, Mr. Gibbons having secured employment there with the Nebigall Packing company.

Honoring Crystal Bryan, one of the three members of the 8th A class who received exemptions in all of the eighth grade examinations, members of the class recently entertained with a party at the Bryan home. After an evening in which games and music were indulged in, supper was served.

Monday evening the Rebekahs gave a party for their children. Those who had no children of their own borrowed from their friends. About 60 children and forty grown-up children

joined together in playing "farmer-in-the-dell," "flying dutchman" and other games dear to children. During the evening refreshments were served after which the children were taken home.

HOUSEHOLD HELPS

Turn a silk glove wrong side out before washing.

A little sweet cream will keep caramel filling from "sugaring."

Wrinkles in silk waists, missed from being packed in a traveling bag, or lying in a drawer may be easily removed without ironing by shaking out and hanging over a hot radiator or register for a few minutes. The steam makes the wrinkles disappear.

Children's dresses always need patching. That the patches may be of the same shade as a wash dress, when needed, a good suggestion is to sew a small piece of the goods on the wrong side where it will not be in the way. In washing the piece will fade like the dress and be ready for use as a patch with best results.—Rural Weekly.

County Sheriff Strickland warns motorists that the period of grace to secure the 1926 license tags is about over and that prosecutions will follow for those who have not yet secured their new licenses.

News, \$1.75 per year in advance.

CROOKED TRAILS AND STRAIGHT

By WILLIAM MacLEOD RAINIE

A Cow-Puncher Story With a Punch
Cattle rustling! Horse stealing! A near lynching! A \$20,000 robbery! Sheriff kidnaped! Disappearance of the Heroine.

A splendid story breathing the true spirit of western adventure. Based upon the "rustling" wars and implacable feuds of cowmen and sheep raisers. Principal characters are a cattleman who has won the title of gamest sheriff in Arizona; his charming daughter, true to type, pride of the countryside and goddess of the cowboys; a singularly attractive hero, just bad enough to be human and interesting; bad men true to the period and environment, and a "black sheep" brother of the heroine enmeshed in their wiles. Contains a romantic sub-plot involving the brother and a delightful girl. Made up of stirring exploits and exciting events.

NEW SIGN SAYS TEST SEED
"When farmers, college professors and business men desert their work and crawl under the house to mend frozen water pipes it is a good sign in western Oregon that every bit of seed corn planted should be thoroughly tested for germination," says G. R. Hyslop, head of farm crops at O. A. C. It is admitted that this is a new natural sign, but it indicates that such abnormally cold weather accompanied by the normal moisture content of all seed corn not artificially dried greatly damaged the seed. Directions for making the test will be sent on request, or the college seed testing laboratory will test samples free of charge.
