### GOING TO SCHOOL IN PORTLAND

Bill Hill, son of Mr. and Mrs. W. G. Hill of this city, is planning to leave the latter part of the week to take up a course in salesmanship at the Behnke-Walker business college in Portland. He is a graduate of the Springfield high school and for several months has been president of the American Legion.

### FRANCE TO GIVE MEMORIAL CERTIFICATES TO RELATIVES

The following letter, which is self-explanatory, has been received from the state adjutant of the American Legion:

"The nearest relatives of men who died during the World War are requested to send the full names of the soldiers, sailors or marines making the supreme sacrifice, to the American Legion post in their locality as soon as possible, in order that the men may be remembered in the presentation of memorial certificates of the French government.

"Presentation ceremonies will be held by local posts of the American Legion on February 22, 1920, Washington's birthday.

"With the names of the men who died, should go the names and addresses of the next of kin, and the probable place where they can be reached on February 22nd."

### WHAT EVERY VETERAN KNOWS

That "one hundred per cent Americanism" too frequently is what I am and the fellow I don't like isn't.

That the army was full of a lot of Wops and Kikes and Russians and Finns and other low-down ignorant white trash and foreigners.

That they all fought like the very devil.

That a lot of wise guys whose ancestors came over on the May flower had good, soft jobs in the S. O. S.

That the more education you had the less chance there was of getting killed.

That its no crime to be born outside the U. S. A., although frequently a misfortune.

That it's no fault of anyone's if he wasn't born inside the U. S. A.

That the Wilsons were Scotch Presbyterians and the Roosevelts were Dutch Dissenters, and if it weren't for them and the Slavs and Latins and Scandinavians and Celts and Saxons and Gauls and a lot more we would be in a rotten bad fix.

That the men who fell in France came from many racial beginnings, but they had a common ending under the same flag.

That this is a good time for universal tolerance, and that the promoters of hatred and war usually begin by promoting intolerance.

That "one hundred per cent Americanism," if it truly means anything, means something a whole lot bigger than race, color or previous condition. It means color of the heart, not of the hide.—Stars and Stripes.

### WOMEN AND THE INCOME TAX

Women who had incomes during 1919 are reminded by Collector of Internal Revenue Milton A. Miller that they are subject to all of the provisions of the federal income tax. Many thousands of women file returns and pay taxes regularly, and there are new names added to this list each year. The high wages and salaries received by women last year will perhaps double the number of those who are required to file returns.

A public school teacher, or other city, town, county and state employe, is not taxed on her salary or wages, but must file a return if her taxable income from other sources was sufficient to come within the law's demands.

### MERITORIOUS SERVICE.

"Yep," said the honest ex-buck, "I spent fourteen months in the lines without any relief."

"But I didn't know you were at the front at all," said his uncle.

"I wasn't," replied the buck, "but I spent eight months in the mess line, five months in the inspection line, and one month in the pay line."—The Home Sector.

### DON'T ATTEMPT R. R. CROSSING IF YOU SEE TRAIN SPEEDING

A passenger train approaching at full speed and still a quarter of a mile

away will cover the remaining distance in 18 seconds; if half a mile away, it will flash past in 36 seconds. These figures are offered by R. J. Clancy, safety specialist of the Southern Pacific, to impress upon motorists the significance of attempting to cross railroad tracks with a train in sight.

"Motorists should think in terms of time as well as distance. It requires a wait of only a fraction of a minute to permit a train to pass. On the other hand, 18 seconds allows too small a margin to escape an accident if in shifting gears the engine stops or anything goes wrong.
