

INDUSTRIAL REVIEW

February 16.

Portland will spend \$500,000 on city water works in 1920.

Burns—Harney valley land owners plan to irrigate 80,000 acres.

Salem—Estimated there will be approximately \$83,460 of state money available for the construction of market roads in the various counties of Oregon during the year 1920.

Prineville—Landowners to vote March 6 on \$1,000,000 bond issue to complete irrigation dam project.

Portland proposes \$500,000 memorial temple for soldiers of all wars.

Klamath Falls—Lumber company to erect new planing mill.

Wending loggers to build \$12,000 social hall.

Bertha-Beaverton road to be built in Multnomah county.

West Coast sawmills last week cut orders for 2462 cars, which was 200 more than they shipped and have 13,612 cars of unfilled rail orders on their books.

Marshfield—Bradley Candy company to erect business building.

Salem to have new hospital building completed September 1.

Coos Bay and Salem sawmills give increase of wages.

Lacomb—Cameron sawmill removed to Crabtree creek.

West coast lumber mills booked 95,000,000 feet in orders last week, less than 50 per cent of the total business offered.

Alpine milling operations employ 300 persons.

Bend—New \$100,000 steam power plant is being rushed.

Salem—Hunt Bros' to build \$85,000 packing plant.

Oregon to receive \$24,671 government school funds.

Operations of railroads, sleeping car lines, express companies and waterways, united under federal control, cost the nation approximately \$700,000,000 since they were taken over two years ago. Net loss of \$594,200,000 resulted from railroad operation alone, according to figures of railroad administration.

Grants Pass—Forest service will open trail between Illabe, in the Siskiyou national forest, and Powers,

which will reduce travel time one-half and be passable year round.

Roseburg—The Douglas County Light and Water company install second large pump.

Newberg—Valley Canning company building \$35,000 addition.

Roseburg—Douglas county creamery enlarges plant.

Pendleton—Building permits totaling \$92,925 issued.

Grande Ronde gets new \$50,000 fruit packing plant.

Vale—Standard Oil company have new distributing plant.

Grants Pass gets ore reduction and chemical plant.

Klamath Falls to have more paved streets.

Toledo to have big electric mill, power plant and railroad extension.

Reidsport to have new sawmill.

Engene Fruit Growers association to have new building.

Salem—Road work under contract in Oregon under supervision of state highway department for years 1919 and 1920 total \$17,987,609.95.

Oregon-Washington-Idaho Airplane company to establish daily commercial passenger airplane service between Portland and Astoria, with Seaside as western terminal.

PEACH LEAF CURL MENACES

Growers who do not spray their peach trees by the middle of February in western Oregon are liable to get poor results in leaf curl control unless the weather is such as to delay the coming out of the winter buds. Satisfactory control is seldom accomplished after the leaf tips begin to show. Early spraying is good insurance. Bordeaux 4-6-50 thoroughly applied is the best remedy. Lime-sulfur, while sometimes successful, does not give uniform results. Leaf curl seriously depletes the vitality of the trees, and orchards which show damage from the freeze of December should be sprayed to give the trees that are not completely killed every chance for recovery.

SALVATION ARMY PLANS TO SERVE ENTIRE STATE

Portland, Feb. 17—Formation of local advisory boards of the Salvation Army, composed of representative citizens and civic leaders has been accomplished in several Oregon counties and will continue until practically every community in the state will be in a position to command the Army's services and institutional facilities either in Oregon or any other state.

The success with which the plan, embraced in the Army's 1920 "Home Service Program" has been received everywhere indicates general concurrence in the belief that it offers a solution of the problem of effecting expeditions and efficient social service in many sections of the state where the population is somewhat scattered and there are few or no Salvation Army corps. In one county having more than a hundred cases of influenza it was learned no nurses were available while another was discovered to be totally lacking in charitable organizations.

Through the advisory boards the Army hopes to establish much closer relations with the auxiliary sections in order to concentrate its relief forces wherever they may be most needed. Each board will study and report on the situation in its county, the reports to be confidential and used only in determining the action of the Salvation Army. Thus the Army men will be called only where needed and can act with full knowledge of each local situation. If warranted, it is expected experienced Army officers will be sent to certain communities or new corps established as the situation warrants.

NEW BULLETINS READY SOON

Control of gaseous stings and insecticide spray information on effect of sprayers and how to use them will be offered in bulletins soon to the people of Oregon by the U. S. C. experiment station, each after March 1. These bulletins were prepared by the department of entomology. The preliminary investigations on which they are based were begun four years ago since which time a large volume of data has been recorded from the poisoning of insects of insects. The information they contain, presented by A. I. Lovett and his associates, is expected to decrease the cost and increase the degree of insect control.

Effects of Constipation

Constipation causes a stagnation of the secretory system of the body. The poisonous refuse matter that should be carried away is retained in the system and often poisons the blood and causes numerous disorders. No one can afford to neglect his bowels. A dose of Chamberlain's Tablets will afford relief. Avoid drastic cathartics as they take too much water out of the system and their use is likely to be followed by constipation.

STUDENTS CROWD CAMPUS FOR PLACE IN COLLEGE

Oregon Agricultural College campus, Feb. 17—"Quit your shavin'" is not so funny as it sounds when used by students as protection from the more impatient ones crowding some of the long standing lines. The trouble is due to the fact that every three students at O. A. C. are occupying room and sharing educational advantages designed for two.

The plans were prepared to offer instruction and training to some 2000 students—a number then considerably in excess of enrollment. But the rising need for education has drawn 3335 to the O. A. C. campus to divide the means provided for the 2000.

It just naturally takes a little aggressiveness for any of them to get their share.

FROZEN LIME-SULFUR USELESS

Lime-sulfur solution that has been subjected to freezing loses much of its active properties, say the O. A. C. experiment station chemists. Growers are warned that material that went through the severe cold weather of December may be ineffective and can scarcely be relied upon to do the work expected.

"Now Is the Time to Do It" says the Good Judge

Go to real tobacco—the small chew with the rich tobacco taste that lasts a long time. It will cost you less to chew than ordinary tobacco. Any man who uses the Real Tobacco Chew will tell you that.

VALUE OF SUGAR AS HUMAN FOOD

Sugar produced from sugar beets contains 1814 calories energy and heat units per pound, or more than wheat, rice, corn and many other cereals. The amount of sugar obtained from an acre of beets will feed 40 or 50 people per year on average sugar rations.

MANY DOG LICENSES ISSUED

More than 600 owners of dogs in Lane county have secured licenses from county clerk Bryson for their dogs. A number of Springfield people secured their licenses this week.

NOTICE FOR PUBLICATION ISOLATED TRACT.

U. S. Land Office at Roseburg, Oregon, January 14, 1920.

Notice is hereby given that, as directed by the Commissioner of the General Land Office, under provisions of Section 2455, R. S., pursuant to the application of Herman Seymour Smith, Serial Number 011789, we will offer at public sale, to the highest bidder, but at not less than \$2.00 per acre, at 10 o'clock A. M., on the 25th day of February, next, at this office, the following tract of land, the Southwest quarter Southwest quarter section two Township seventeen South, Range two East of Willamette Meridian.

This tract is offered into the market on a showing that the greater portion thereof is mountainous or too rough for cultivation.

The sale will not be kept open, but will be declared closed when those present at the hour named have ceased bidding. The person making the highest bid will be required to immediately pay to the Receiver the amount thereof.

Any persons claiming adversely the above-described land are advised to file their claims, or objections, on or before the time designated for sale.
