MARNE MEMORIAL POSTER

JUST as the school children of France gave for their country's gift to the United States—the Statue of Liberty—so will American school children contribute "one cent and upward" for "America's Gift to France," a monumental statue by Frederick MacMonnies, the noted American sculptor. Mr. MacMonnies is contributing his services toward the monument which, it is estimated, will cost \$200,000.

The poster shown herewith is by Albert Steiner, noted American portrait painter. It typifies the tribute which this country will pay to the French through the Marne monument. The poster will be displayed in cities, towns, and villages, and will designate many of the places where contributions may be made during the week of March 22 a free will offering, in which numbers of contributors, rather than size of contributions, will be sought from school children and others. Contributions are now being received at National Headquarters, 150 Nassau street, New York, by Charles H. Sabin, president of one of New York's largest trust companies, who is treasurer of the fund. The memorial will be erected at

Pretty New York School Girl Helps Spread Appeal for Pennies for "America's Gift to France."

Meaux, on the Marne, and will rival in size and grandeur of design the Statue of Liberty.
