YOUR LIBERTY BOND.

The United States government borrowed money from you to finance the war. You hold the government's promise to pay you back. This promise is called a Liberty Bond or Victory Note. On this bond is stated the conditions under which the government borrowed the money from you. For instance: If you hold a bond of the Third Liberty loan, it states that on April 15th and October 15th of each year until maturity, you will receive interest on the amount you paid for the bond. Other issues bear other rates of interest and other maturity dates, all of which are clearly stated on the bond.

Now, if you keep your bond until the date when the government pays you in full for it, you do not need to worry if, in the meantime, the price is low one day or high the next. You and Uncle Sam are living up to your agreement with each other, and neither will lose by it.

On the other hand, if you sell your Liberty bond now, you will find that the man you sell it to will not give you a dollar for every dollar you paid for it. The price has been brought down because so many people are offering to sell their bonds. If the market is flooded with tomatoes, you can buy them cheap, but if everyone is clamoring for tomatoes and there are few to be had, the price goes up. The same is true of Liberty bonds. Short-sighted people are dumping them on the market, and wise ones are buying them.

The best advice that can be given to the owner of a Liberty bond is this: Hold the bond you bought during the war; it is as safe and sound as the United States government itself.

Hold on to your Liberty bonds and buy more.

**Only 1671 Out of 170,000
Ministers Pay Income Tax**

Ministers are exempt from the operation of the income tax law—not through any specific exemption in the law itself but because they do not earn enough money to come within the law's minimum requirement. Out of a total of 170,000 ministers in the United States, but 1,671 receive a big enough salary to be required to pay any income tax.

These incomes were not only pay from churches but included private earnings too. Hundreds of ministers have been forced to engage in some occupation outside of the ministry such as poultry raising, barbering, market gardening, etc., to earn enough to feed and clothe their families. These figures show vividly why the Interchurch

World Movement has included increased pay for ministers as one of the chief planks in its forward-looking, five-year program for the expansion of Protestantism throughout the world.

The average salary of the college trained preacher is \$937 according to established figures—several hundred dollars less than the average annual earnings of the uneducated worker in some of the leading industries of the country. A worker in the rubber industry averages \$1,526.20 a year. The average for the boot and shoe worker is \$1,346; for the chemical worker \$1,326.40; the silk worker, \$1,179.88; for the paper worker \$1,164; and for the wool worker \$962.72.
